Public Comments: Feb. 9, 2026
Los Angeles City
Health Commission.

my thanks for allowing me the opportunity to present a concern impacting the health + well being of seniors, especially those living in housing funded by HUD + LA City. Such housing is the last stop if not the last resort for a majority. The issue of concern is second and third hand smoke - be it from tobacco, vaping or cannbis. Oft times smoking within a building might be forbidden. However, the consuming of these toxic substances are allowed within 25 feet of the building entryway! In other words, to get to the safety of your building, you walk through a plume / cloud of smoke! Also, most ignore the fact that air currents push the smoke around. And not to forget, the toxic substances, stick to hair, clothing, skin + building surfaces for a long time to continue their lethal impacts.

Please please look into this matter + craft language codes that ensure the health + safety of seniors. Thank you

M Malalla
