

## Strategies to Address the COVID-19 Pandemic in Los Angeles County

Los Angeles City Health Commission September 14, 2020

Jeffrey D. Gunzenhauser, MD, MPH Chief Medical Officer and Director, Bureau of Disease Control Los Angeles County Department of Public Health

## **Presentation Outline**

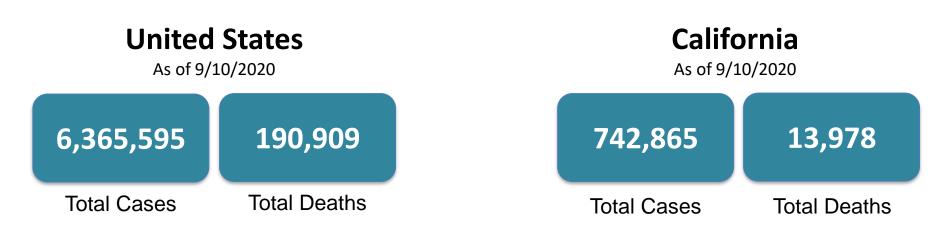

- COVID-19 by the numbers
- State tiered framework
- Strategies: Compliance, Containment and Collaboration
  - Enforcement plan
  - Contact tracing enhancements
  - Working with labor and worker health councils
  - Updated Department of Public Health website
- Specific Questions
- Q&A

Los Ange	les County
----------	------------

As of 9/10/2020

Data do not include the Cities of Long Beach and Pasadena

### Daily Reported Number of COVID-19 Cases, Past 7-day Average– April 17 to September 7, 2020

covid19.lacounty.gov

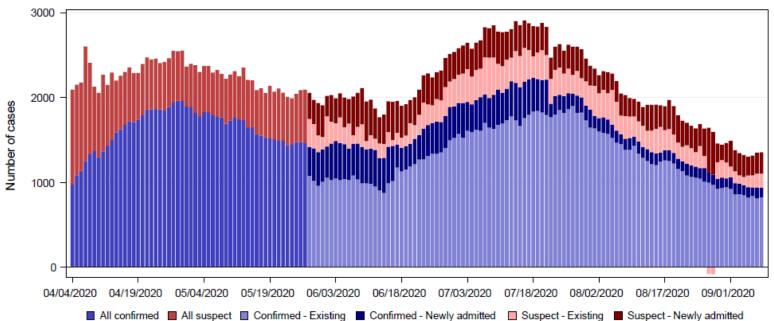

### Los Angeles County Hospitalized Patients Report Date Reported: 09/08/20 92 Hospitals Reporting

									Number of	Percent of
		Total	Difference	Percent				Percent	confirmed	confirmed

## 7-Day Daily Average SNF-Associated Deaths and Daily Average Total Deaths, June 12-Aug 31, 2020, LAC

7

### Daily COVID-19 Percent Positivity by Specimen Collection Date for Diagnostic Tests in Los Angeles County, Past 7-day Average from 7 days Ago – April 1 to August 31, 2020

### covid19.lacounty.gov

### Cumulative Case Rates\* for Covid-19 per 100,000– September 7, 2020

	Case Rate*	
Los Angeles County Total		
Native Hawaiian or Other Pacific Islander Asian	3,474	
Latinx	1,846	
American Indian or Alaska Native	934	
Black	836	
White	635	
Asian	463	
	Native Hawaiian or Other Pacific Islander Asian Latinx American Indian or Alaska Native Black White	

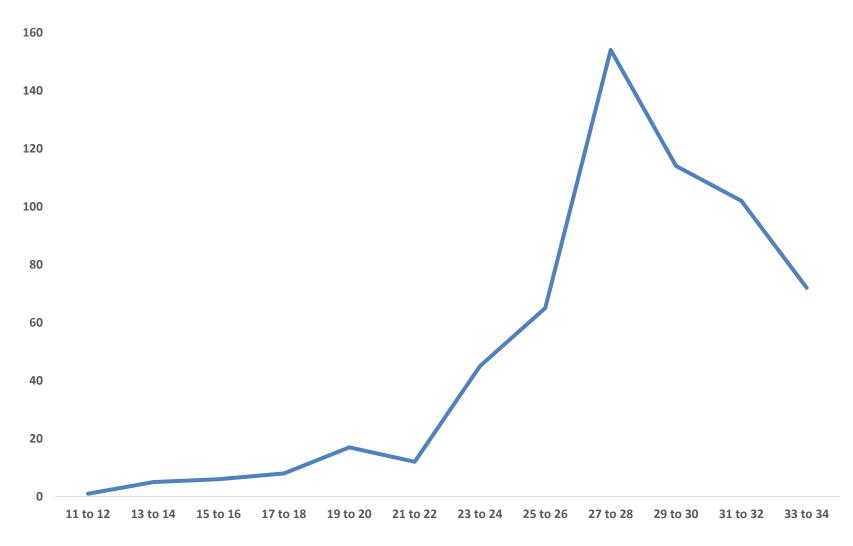

\*Testing Rates are Age-Adjusted

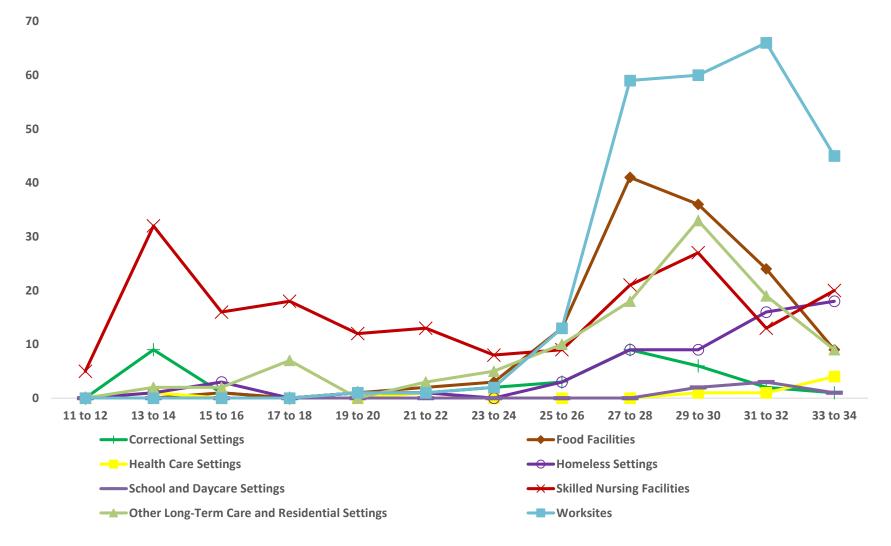

### All Non-Healthcare, Non-Residential Workplace Outbreaks by Week Opened, March 15-August 29 (Epi Weeks 11-34), 2020

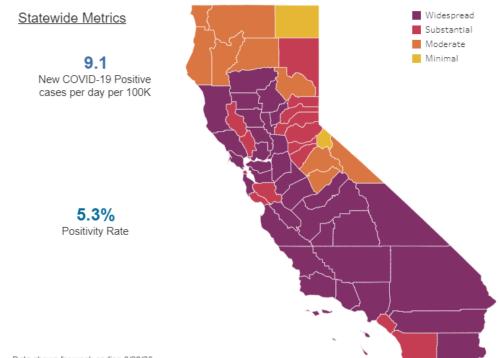

### Open Outbreaks by Week Opened and Setting Type, March 15-August 29 (Epi Weeks 11-34), 2020

### County Tier Assignments Based on Risk of Community Transmission Understand your county's status

Every county in California is assigned to a tier based on its test positivity and adjusted case rate. At a minimum, counties must remain in a tier for at least 3 weeks before moving forward. Data is reviewed weekly and tiers are updated on Tuesdays. To move forward, a county must meet the next tier's criteria for two consecutive weeks. If a county's metrics worsen for two consecutive weeks, it will be assigned a more restrictive tier. Public health officials are constantly monitoring data and can step in if necessary.

Data shown for week ending 8/29/20

# Framework Metrics According to Tiers Based on Risk of Community Disease Transmission, California

	Higher Risk Lower Risk of Community Disease Transmission			
	Widespread Tier 1	Substantial Tier 2	Moderate Tier 3	Minimal Tier 4
Measure*				
Adjusted Case Rate for Tier Assignment**	>7	4-7	1-3.9	<1
(Rate per 100,000 excluding prison cases, 7 day average with 7 day lag)				
Testing Positivity*** (Excluding prison cases, 7 day average with 7 day lag)	>8%	5-8%	2.4.9%	<2%

<sup>\*</sup>To advance to the next tier, a county must also meet health equity measures.

<sup>\*\*</sup>Adjusted case rate will be determined using confirmed (by PCR) cases, and will not include state and federal inmate cases. Assignment of a case rate tier includes an adjustment factor for counties that are testing above the state average.

## **Enforcement Plan**

Businesses Requiring Health Permit/License					
First Violation	Second Violation	Third Violation			
Monetary Fine	Monetary Fine Increases	Monetary Fine Increases			
Notice of Violation	7 Day Suspension	<b>30 Day Suspension</b>			
<ul> <li>Notice of Violation issued</li> <li>Follow-up visit scheduled (3-7 days)</li> <li>Notice of intent to suspend Public Health permit</li> </ul>	<ul> <li>7 day suspension of Public Health Permit</li> <li>Follow-up visit scheduled before reinstatement</li> </ul>	<ul> <li>Compliance verification inspection</li> <li>30 day suspension of Public Health Permit</li> <li>Intent to revoke Public Health permit</li> <li>Possible referral to District Attorney</li> </ul>			

## **Enforcement Plan**

### **Businesses Not Requiring Health Permit/License**

After an initial complaint is sent to Public Health, a letter will be sent notifying the responsible party of needed corrections. If there is a second complaint, Public Health with initiate field visits.

First Violation	Second Violation	Third Violation
Monetary Fine	Monetary Fine Increases	Monetary Fine Increases
<b>Notice of Violation</b>	7 Day Suspension	30 Day Suspension
<ul> <li>Follow-up visit scheduled (3-7 days)</li> <li>Notice of intent to suspend Public Health permit</li> </ul>	<ul> <li>Issue Health Officer Order to Close</li> <li>Contact local law enforcement</li> <li>Refer to County Counsel for temporary restraining order</li> </ul>	<ul> <li>Compliance verification inspection</li> <li>Contact local law enforcement for issuance of misdemeanor citation</li> <li>Refer to District Attorney for filing of misdemeanor charges</li> <li>Possible referral to District Attorney</li> </ul>

## **Contact Tracing Enhancements**

# Contact Tracing Incentive Program

# Support for Isolation and Quarantine

# COVID-19 Case Info Line

## **Working with Labor and Worker Health Councils**

Public Health Councils	<ul> <li>Groups of workers trained to monitor compliance with County Health Officer Orders (HOO) at their worksites</li> </ul>	Training and Support Organizations
Certified Worker and Community- Based Organizations	• Third-party organizations certified by DPH to serve as the intermediary between public health councils and DPH*	<ul> <li>Provide training, technical assistance, and other support to public health councils, certified worker orgs, and DPH</li> </ul>
LA County Dept. of Public Health (DPH)	<ul> <li>Collaborates with third-party organizations to address reports of non-compliance at worksites</li> </ul>	

# **\*NEW\* WEBSITE**

## **Answers to Some Questions**

- What evidence is there of the effectiveness of the strategies?
- How effective were previous plans?
- Are there opportunities to present data in different ways?
  - Adjust rates for cases that occur in high risk settings
  - Display health outcome data by BMI or narrower age categories
  - Breakdown of data by council or supervisor district
- What opportunities are there to improve communication?

COUNTY OF LOS ANGELES Public Health
