Presentation to the Los Angeles City Health Commission, April 11, 2022

Our priorities are reflected in how we show up, where we show up, and how we budget.

- Results-Oriented Budgeting
- Empowered Commissions
 - Leadership, Budgeting, Accountability
- City-County Relationships with Accountability
 - The “Department of Health” Question

A city with a holistic approach to wellness

- Traditional "medical" matters
- Public health through homelessness, public safety
 - Concrete roadmap to functional zero
 - Non-violent community engagement force
- Additional concerns – everything touches public health
 - e.g. food insecurity, affordability, clean air and environment, traffic, education
- General wellness promotion

Forward-looking leadership

- Post COVID Recovery
- Long-term planning during short-term triage
- Disaster mitigation (water, earthquakes, infrastructure)
- Societal support systems, particularly in mental health
