RULES, ELECTIONS, INTERGOVERNMENTAL RELATIONS

RESOLUTION

WHEREAS, any official position of the City of Los Angeles with respect to legislation, rules, regulations or policies proposed to or pending before a local, state or federal governmental body or agency must have first been adopted in the form of a Resolution by the City Council; and

WHEREAS, though scratching is a natural cat behavior, it is estimated that 24 percent of domesticated cats in the United States have been declawed to prevent them from scratching people and objects; and

WHEREAS, cat declawing is a cruel and unethical surgical procedure that includes the amputation of the first knuckle of each cat's toes, resulting in lifelong disfigurement and pain; and

WHEREAS, experts suggest that cats who are declawed are more prone to biting, since they may be in pain, are frustrated, and cannot use their claws as defense; and

WHEREAS, currently, declawing is prohibited or considered unethical in several countries, including Sweden, Brazil, Germany, Switzerland, the United Kingdom as well as in 15 counties and cities in the United States including Los Angeles, New York and Maryland; and

WHEREAS, although non-surgical alternatives are available to address cat scratching such as nail trimming, soft claw caps, and behavioral training, declawing continues to be an issue; and

WHEREAS, AB 867 (Lee) prohibits the declawing of a cat unless a veterinarian performs the procedure for a medically necessary purpose that benefits the cat's health; and

WHEREAS, the bill would require a veterinarian who determines that declawing is necessary, to file a written statement with the California Veterinary Medical Board that includes the purpose for performing the procedure and would require the veterinarian to also provide a copy of the statement to the owner of the animal;

NOW, THEREFORE, BE IT RESOLVED, that by the adoption of this Resolution, the City of Los Angeles hereby includes in its 2025-2026 State Legislative Program SUPPORT for AB 867 (Lee) which would prohibit the declawing of a cat unless a veterinarian performs the procedure for a medically necessary purpose that benefits the cat's health.

TRADE, TRAVEL AND TOURISM

MOTION

The Port of Los Angeles (POLA) is a cornerstone of Southern California's economy and one of the most significant gateways for international trade in the United States. The movement of goods through POLA supports hundreds of thousands of jobs in the City of Los Angeles and beyond— from longshore workers and truck drivers to warehouse employees and small business owners whose livelihoods depend on predictable trade flows.

Currently, uncertainty surrounding tariffs and international trade policy is creating instability for POLA operations and impacts on the broader supply chain. Changes in tariff structures and the threat of future trade disputes are expected to lead to fluctuations in cargo volumes, shifts in trade routes, and delayed investments— all of which pose a direct threat to local jobs and economic activity.

As a body, the City Council has a responsibility to monitor these developments and ensure that the City is prepared to address any long-term disruptions to our trade infrastructure and workforce.

I THEREFORE MOVE that the City Council direct the Executive Director of the Port of Los Angeles (POLA) to report to the Trade, Travel, and Tourism Committee at its next scheduled POLA Quarterly Update on the status of international trade activity and any associated impacts, with a specific focus on POLA's:

- Current and anticipated impacts of tariff uncertainty on cargo volumes;
- Projected effects on employment and local supply chain industries; and
- Strategies being considered to mitigate potential negative consequences and support affected workers and businesses.

MOTION

The Port of Los Angeles (POLA) and Port of Long Beach (POLB) are partnering to build a Goods Movement Training Campus— a one-of-a-kind, transformational facility to train the current and future workforce in maritime and goods movement industries, focusing on zero-emission operations. The 20-acre campus, centrally located in the San Pedro Bay port complex, is expected to open by 2029 and is a partnership between the POLA, the POLB, the California Workforce Development Board, the International Longshore and Warehouse Union (ILWU), and the Pacific Maritime Association (PMA).

The Campus will serve as a centralized hub for attracting, recruiting, and retaining workers in the goods movement sector. Dockworkers, truck drivers, warehouse employees, and other ocean economy and logistics workers will receive training on cutting-edge equipment that promotes air quality, combats climate change, and supports the transition to zero-emission operations. POLA and POLB intend to split the project's cost equally and will together seek additional funding for training equipment and curriculum. Initial funding for the project comes from a secured State budget allocation of \$110 million.

I THEREFORE MOVE that the City Council request that the Executive Directors of the Port of Los Angeles (POLA) and the Port of Long Beach (POLB), with input from leadership of the International Longshore and Warehouse Union (ILWU) and the Pacific Maritime Association (PMA), to appear before the Trade, Travel, and Tourism Committee to report on the status of planning, permitting, site preparation, construction, anticipated operation, and all other relevant aspects of the joint POLA and POLB development of the Goods Movement Training Campus.

AD HOC COMMITTEE ON THE 2028 OLYMPIC AND PARAOLYMPIC GAMES

MOTION

The City of Los Angeles is preparing to host the 2028 Olympic and Paralympic Games (LA28, or the Games), nearly 45 years after the city hosted the 1984 Games, which are widely regarded as one of the most fiscally successful Olympics in modern history. The 1984 Games, organized by the Los Angeles Olympic Organizing Committee (LAOOC), generated a surplus of approximately \$232 million, with revenues reinvested in youth sports and long-term civic legacy through the creation of the LA84 Foundation.

As the City of Los Angeles is hosting the world event for the third time, many events have been outsourced to other US cities. The reasons for such outsourcing include anticipated cost savings by using existing venues.

Cost control and revenue generation for LA28 are of utmost importance, given that the City and State of California have agreed to serve as a financial backstop, meaning taxpayers will cover any cost overruns that LA28 does not cover with income. The agreement stipulates that the City will cover the first \$270 million in overruns, the State will cover the next \$270 million, and the City will be responsible for anything beyond that.

Given the scale of LA28, the potential costs of the Games, and the volume of commercial activity that the Games can generate—including advertising, licensing, hospitality, media, and real estate—the City must carefully track the estimated LA28 budgets and examine creative and responsible ways to control costs and capture revenue and ensure a reasonable return on investment.

I THEREFORE MOVE that the City Council instruct the Executive Director of the City Tourism Department (CTD), Executive Director of the Office of Major Events, Chief Legislative Analyst (CLA), City Administrative Officer (CAO), and in consultation with the Office of Finance and the LA28 Organizing Committee, to report back in 7 days on:

- An analysis of the budget summaries in LA28's 2024 and 2025 Annual Reports, including a breakdown of the year-over-year budget increases within the two Reports, including the estimated operating expenses and anticipated revenues;
- An analysis of any further potential cost and revenue impacts on the City, based on the LA28 report to the International Olympic Committee (IOC) Executive Board action on April 9, 2025, relating to venue selection inside and outside the City; and
- An overview of all City revenue streams tied to LA28, including but not limited to:
 - Licensing and intellectual property royalties;
 - Hotel and occupancy tax surges;
 - Use fees for City-owned venues and facilities;
 - Event-related advertising, filming, and branding on public assets;
 - Transportation-related surcharges or permits; and

APR 08 2025

- Shared revenue models from commercial vendors or sponsors.

I FURTHER MOVE that the City Council instruct the Executive Director of the CTD, Executive Director of the Office of Major Events, CLA, CAO, and in consultation with the Office of Finance and the LA28 Organizing Committee, to report back in 7 days on:

- Historical revenue models from the 1984 Los Angeles Olympics, including key policy decisions, public-private structures, and revenue-generating mechanisms that contributed to the 1984 Games' fiscal surplus; and
- Legal and administrative strategies for ensuring that revenues in excess of costs, if any, generated by LA28 are transparently tracked, retained, and made available for reinvestment in civic priorities.

WHEREAS, any official position of the City of Los Angeles with respect to legislation, rules, regulations, or policies proposed to, or pending before a local, state or federal governmental body or agency must have first been adopted in the form of a Resolution by the City Council; and

WHEREAS, the California Environmental Quality Act (CEQA) requires state and local agencies to evaluate and disclose the significant environmental impacts of projects they approve, and to avoid or mitigate those impacts if possible; and

WHEREAS, while CEQA is a critically important law for protecting people and the environment from harmful projects, especially for historically marginalized and underserved populations, some projects are greatly beneficial to communities; and

WHEREAS, in some instances, CEQA studies, appeals, and litigation have entangled these beneficial projects in lengthy and costly delays; and

WHEREAS, CEQA, until January 1, 2030, exempts active transportation plans, pedestrian plans, or bicycle transportation plans for the restriping of streets and highways, bicycle parking and storage, signal timing to improve street and highway intersection operations, and related signage for bicycles, pedestrians, and vehicles; and

WHEREAS, on January 14, 2025, Senator Wiener introduced Senate Bill (SB) 71, which would make permanent the statutory CEQA exemptions for transit and active transportation projects that advance the state's climate, safety, and public health goals, while improving access and mobility options; and

WHEREAS, SB 71 (Wiener) builds upon previous legislation to expedite certain projects, such as pedestrian or bicycle facilities, bus facilities, transit signal priority, light rail, and zero-emission transit vehicle infrastructure, by exempting them from CEQA indefinitely and helping local agencies deliver these transportation projects more quickly and cost effectively; and

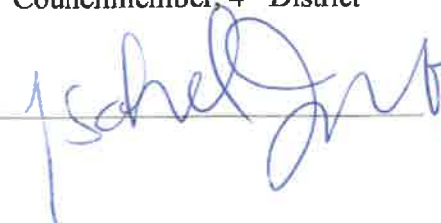

WHEREAS, SB 71 (Wiener) is co-sponsored by the Los Angeles County Metropolitan Transportation Authority, as well as the California Transit Association, the Bay Area Council, and the San Francisco Bay Area Planning and Urban Research Association;

NOW, THEREFORE, BE IT RESOLVED, that by the adoption of this Resolution, the City of Los Angeles hereby includes in its 2025-2026 State Legislative Program SUPPORT for SB 71 (Wiener), which would make permanent the statutory California Environmental Quality Act (CEQA) exemptions for transit and active transportation projects that advance the state's climate, safety, and public health goals, while improving access and mobility options.
