EXEMPTION, ENERGY AND ENVIRONMENT COMMITTEE REPORT and ORDINANCE FIRST CONSIDERATION relative to the Milford Solar Phase II Sales Agreement and the Milford Solar Phase II Agency Agreement with the Southern California Public Power Authority.

Recommendations for Council action, SUBJECT TO THE APPROVAL OF THE MAYOR:

1. DETERMINE that these agreements are exempt pursuant to California Environmental Quality Act (CEQA) Guidelines Section 15060(c)(3). In accordance with this section, an activity is not subject to CEQA if it does not meet the definition of a project. Section 15378(b)(2) states that continuing administrative or maintenance activities do not meet that definition.
2. APPROVE the Los Angeles Department of Water and Power (LADWP) Resolution authorizing the execution of the Milford Solar Phase II Power Sales Agreement No. BP 24-002 and Milford Solar Phase II Agency Agreement with the Southern California Public Power Authority for the purchase of average annual energy of 585,000 MWh of renewable energy for the term retroactive to January 30, 2025 through January 29, 2055, at a cost of \$22.1 million annually and \$663 million over the proposed 30-year term.
3. DELEGATE authority to the Board of Water and Power Commissioners (Board) by ordinance; and, AUTHORIZE the Board to act on and approve all future amendments to the Agreement pursuant to Charter Section 674.
4. AUTHORIZE, upon proper certification, the Chief Accounting Employee to draw demands on the Power Revenue Fund, in accordance with the terms of these amendments.
5. PRESENT and ADOPT the accompanying ORDINANCE dated May 21, 2025, approving the Milford Solar Phase II Power Sales Agreement, No. BP 24-002 and the Milford Solar Phase II Agency Agreement, No. BP 24-003 by and between the City, acting by and through the LADWP, and the Southern California Public Power Authority.

Fiscal Impact Statement: The City Administrative Officer (CAO) reports that there is no impact on the General Fund. The proposed Milford Solar Phase II Power Sales Agreement No. BP 24-002 and the Milford Solar Phase II Agency Agreement No. BP 24-003 for the acquisition of approximately 585,000 MWh annually of renewable energy from the Southern California Public Power Authority will cost approximately \$22.1 million annually and \$663 million over the proposed 30-year term. The rate impact on a LADWP residential customer is estimated to be 0.033 cents per kilowatt-hour and approximately \$1.18 per year over the term. The required funding will be budgeted annually by the LADWP and will be paid from the Power Revenue Fund.

Financial Policies Statement: The CAO reports that above recommendations comply with LADWP Financial Policies.

Main 50 Housing, LP (Sponsor), a California limited partnership, has requested that the City of Los Angeles (City) through the Los Angeles Housing Department (LAHD) issue Multifamily Housing Revenue Bonds, in an amount not to exceed \$18,503,750 to finance the new construction of the 57-unit multifamily housing project known as Main Street Apartments (Project) located at 100 West 55<sup>th</sup> Street (also known as 5501 and 5511 South Main Street) in Council District 9. The Project will provide 56 units of affordable housing, and one manager unit.

In accordance with the Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA) and as part of the bond issuance process, LAHD conducted the required public hearing on April 17, 2025. Notice of the public hearing was published on April 9, 2025. LAHD is required to provide proof to the California Debt Limit Allocation Committee (CDLAC) that a TEFRA hearing has been conducted as part of the application process. The Sponsor has pledged to comply with all City and LAHD bond policies related to the work described in this motion, including but not limited to payment of prevailing wages for labor and project monitoring with the LAHD.

The City is a conduit issuer and is required by federal law to review and approve all projects within its jurisdiction and conduct a public hearing. The bond debt is payable solely from revenues or other funds provided by the Sponsor. The City does not incur liability for repayment of the bonds. To allow the bonds to be issued in accordance with CDLAC requirements, the Council should approve the minutes of the hearing and adopt the required Resolution (attached).

I THEREFORE MOVE that the City Council consider the attached results of the Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA) public hearing held on April 17, 2025 for Main Street Apartments and adopt the attached TEFRA Resolution approving the issuance of bonds in an amount not to exceed \$18,503,750 for the new construction of a 57-unit multifamily housing project located at 100 West 55<sup>th</sup> Street (also known as 5501 and 5511 South Main Street) in Council District 9.

WHEREAS, in 1998, Congress passed the Children's Online Privacy Protection Act, which directed the Federal Trade Commission to prescribe regulations for commercial website operators regarding the collection and use of the personal information of children under the age of 16; and

WHEREAS, in 2022, California passed the Age-Appropriate Design Code Act to impose further obligations from businesses that provide an online service or product to protect the personal information of children under the age of 17 and prohibit the use deceptive tactics such as dark patterns; and

WHEREAS, there are currently no federal statutes that require website or application developers to determine the age of individuals who access their websites or use their products, although some companies have developed age verification methods or use third parties to prevent minors from accessing their websites and products; and

WHEREAS, currently pending before the State Assembly is Assembly Bill (AB) 1043 (Umberg), the Digital Age Assurance Act, which would require companies that manufacture devices, operating systems, or app stores to require account holders to provide their age and/or date of birth to notify app developers in real time of their users' age brackets to provide age-appropriate access; and

WHEREAS, AB 1043 would require companies to obtain parental consent for users under 16 years of age before allowing downloads, and provide parental support tools, including the ability to link accounts, manage content, and limit usage time for users under the age of 18; and

WHEREAS, AB 1043 would establish app-store level age verification, but not require the collection of additional personal data beyond what is necessary to generate age bracket signals, and authorize the Attorney General to enforce penalties for noncompliance; and

WHEREAS, AB 1043 would create age-appropriate safeguards and encourage the development of safe online experiences, while preserving the benefits of digital participation for young users;

NOW, THEREFORE, BE IT RESOLVED, that by adoption of this Resolution, the City of Los Angeles hereby includes in its 2025-26 State Legislative Program, SUPPORT for Assembly Bill 1043 (Umberg) to require the developers of devices, operating systems, and app stores to collect their users' age and birthdate information to ensure age-appropriate access to digital products and provide support tools for parents and guardians.

## MOTION

The Vermont and Manchester project, an Affordable Housing and Sustainable Communities (AHSC) Round 4 awardee, received funding from the California Department of Housing and Community Development (CF No. 15-0087-S2). Under the AHSC program, the developer is typically responsible for delivering an affordable housing project and the City is responsible for delivering related infrastructure improvements through Sustainable Transportation Infrastructure and Transportation-Related Amenities components. These components are implemented by City entities including the Bureau of Engineering (BOE), Department of Transportation, Bureau of Street Lighting, and Bureau of Street Services.

In 2021, as BOE initiated the design process for the infrastructure component, it was determined that some of the City's infrastructure responsibilities under AHSC overlapped with work already required of the developer under the B-Permit. BRIDGE Housing Corporation, the project developer, approached the City to propose completing the overlapping B-Permit scope and receiving credit and reimbursement for those components.

BOE reviewed and confirmed the overlap in scope, and the City agreed to this approach through an amendment to the AHSC Joint Administrative Agreement (JAA) (C-132825) between the City and the developer. In June 2022, the amendment was executed, authorizing the City to reimburse BRIDGE Housing Corporation up to \$749,331 for the eligible overlapping work.

In October 2024, BRIDGE Housing Corporation submitted an invoice to the Los Angeles Housing Department (LAHD), confirming that the relevant work had been completed. In January 2025, LAHD submitted a draw request to HCD, including all necessary supporting documentation. By March 2025, HCD confirmed that the infrastructure work was completed and issued payment to LAHD.

The reimbursement funds are currently held in the LAHD AHSC account and now need to be transferred to BRIDGE Housing Corporation. Council should take action to complete this transfer of funds. This action has no impact on other funding sources or project components.

I THEREFORE MOVE that the City Council request the Controller to disburse up to \$749,331 from the Affordable Housing and Sustainable Communities AHSC Fund No. 60V/43/43T870, Vermont and Manchester to reimburse BRIDGE Housing Corporation for the construction costs of the Sustainable Transit Infrastructure improvements for the Vermont and Manchester project located at 8505 Evermont Place.

## TRANSPORTATION

Parking meters are used to help improve customer turnover in commercial areas by giving visitors sufficient time to shop and conduct other business while providing a time-based incentive to move their cars when they are done.

Adams Boulevard between La Brea Avenue and Hauser Boulevard is a busy commercial corridor with a mix of small businesses, churches, and residential buildings. Currently, there is little on-street parking to accommodate the needs of the community. The installation of parking meters along this roadway segment could provide an effective mechanism to provide more parking access to patrons and visitors, while creating sufficient turnover for businesses. In order to pursue this strategy, the Department of Transportation needs to analyze parking conditions in the area, estimate the costs, and consider other factors to determine the feasibility of installing parking meters along this roadway segment.

I THEREFORE MOVE that the City Council direct the Department of Transportation to report within 30 days on the feasibility and necessary steps to establish a parking meter zone on Adams Boulevard between La Brea Avenue and Hauser Boulevard, including cost, revenue impact, and timeline.

## PUBLIC SAFETY

### MOTION

During the 2024 calendar year, 70.1% of individuals placed into custody at city-run detention facilities required medical attention. This translates to thousands of individuals receiving care from medical professionals, highlighting the critical role these providers play in maintaining public safety and the health and well-being of the 43,000 individuals who are processed through the Los Angeles Police Department's (LAPD) detention system each year. These medical professionals provide essential and sometimes lifesaving care to individuals, ensuring that urgent needs are being met. In order to manage the high volume of detainees in need of medical resources, the Medical Services Division housed within the Personnel Department currently operates three 24-hour medical clinics at each of the city's detention facilities: 77th Street, Van Nuys, and Metropolitan.

As part of a challenging 2025-2026 budget process, the Personnel Department's Medical Services Division sustained cuts as a result of as-needed salary fund reductions. In an effort to absorb these reductions while preserving other critical public safety services and staff, the Division has proposed suspending medical services at the 77th Street and Van Nuys Detention Facilities.

The loss of these clinics is not just likely to impact the well-being and quality of care of individuals in the care of LAPD, but could also increase overall costs in a number of ways. Following implementation of the proposed changes, arrestees arriving at the Van Nuys and 77th Street detention facilities who require medical attention will need to be transported to the Metro Detention facility in Downtown Los Angeles stretching thin our already understaffed sworn personnel or be seen by a contract medical provider which comes at a high price to the city exacerbating existing budgetary constraints. Furthermore, these positions have historically been difficult to retain due to more competitive salaries for qualified individuals being available elsewhere.

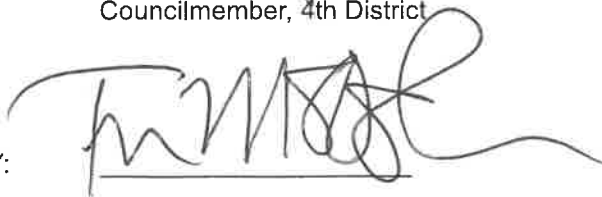

**I THEREFORE MOVE** that the Los Angeles Police Department (LAPD) and Personnel Department, with the assistance of the City Administrative Officer (CAO) report to the City Council within 30 days on the impact of shutting down medical services at the 77th Street and Van Nuys LAPD Detention Facilities that includes but is not limited to the following:

1. Potential impacts on the health and well-being of individuals in LAPD custody;
2. The impact of clinic closures on wait times and service provision at the remaining medical facility at the Metropolitan Detention Facility;
3. Potential strategies for improving recruitment and retention of medical personnel within the Medical Services Division, including but not limited to salary adjustments and related incentives;
4. A cost analysis of maintaining all three in-house medical clinics versus relying on contract providers and expanded LAPD custody transportation services; and
5. Impact of officers out of the field for transport to the Metro Detention Facility.

## MOTION

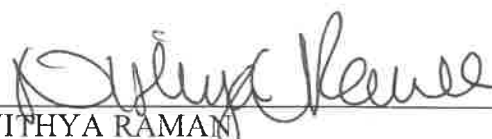

On December 3, 2019, the Council conditionally approved the vacation of a portion of Crescent Heights Boulevard adjacent to Lot 1, Tract 31173, between Sunset Boulevard and Crescent Heights Boulevard (VAC-E1401351) (C.F. 16-1011-S4).

The applicant for this vacation has cleared most of the conditions required in the City Engineer's report attached to the Council File; however, not all conditions were fully satisfied and the vacation approval has expired. In order to provide the applicant with additional time to comply with the conditions recommended by the Bureau of Engineering, vacation proceedings for this area should be re-initiated.

I THEREFORE MOVE that street vacation proceedings for a portion of Crescent Heights Boulevard adjacent to Lot 1, Tract 31173, between Sunset Boulevard and Crescent Heights Boulevard be re-initiated pursuant to California Streets and Highways Code, Division 9, Part 3, Public Streets, Highways and Service Easements Vacation Law.

I FURTHER MOVE that the Bureau of Engineering be directed to process this vacation request under Council File No. 16-1011-S4, Engineering Work Order No. E1401351, and apply the conditions established under the Council Action of December 3, 2019 relative to Council File No. 16-1011-S4.

## MOTION

On September 24, 2018 (C.F. 17-0090-S8), the Los Angeles City Council approved an HHH award in the amount of \$11,520,000 for Southside Seniors to provide 50 units of supportive housing. The total project cost was \$23,401,907.

In January 2023 (C.F. 23-0206), the Los Angeles City Council approved an additional \$2,300,000 for Southside Seniors through the Los Angeles Housing Department's Fast Track program which sought to close financing gaps for previously underwritten and funded LAHD projects that were severely impacted by market conditions caused by COVID-19. This brought the total LAHD contribution for Southside Seniors to \$13,820,000, or \$276,400 per unit. The Council approved another tranche of Fast Track assistance on May 28, 2025; however, Southside Seniors will not be eligible to receive the funding as it has already been awarded financing through the Fast Track program.

On February 28, 2025, the project received its Certificate of Occupancy and as of May 1, 2025, 86 percent of the building was leased. However, after the project completed construction, the Housing Authority of Los Angeles (HACLA) reduced its payment standards for six of eight rental tiers based on geographic location, which included the location of Southside Seniors. As a result of the decrease in operating subsidy from HACLA, the project lost previously committed permanent financing from their conventional lender, as it impeded the lender from a previously agreed upon repayment schedule, and resulted in a \$2,700,000 loss for the project's permanent capital financing.

While the project has completed construction and has nearly completed lease up, the permanent financing for the project supports the on-going operations of the building, which also relies on the availability of rental subsidies. The developer has explored options to fill the \$2,700,000 loss, including applying for State dollars and negotiating with equity investors and philanthropic sources. However, the developer has been unable to secure additional sources of funding.

This project has met LAHD's initial underwriting criteria, and, like many projects, experienced the impacts of COVID-19, but this project has also been uniquely impacted by changes to its operating subsidy, which were completely out of the developer's control. The project conforms with LAHD requirements, barring this uncontrollable factor.

Since the project is complete, has leased up the majority of its units, and has sought other options to no avail, LAHD should close this final financing gap to ensure that this housing asset remains sustainable throughout its operative life.

I THEREFORE MOVE that the City Council:

- A. Direct the Los Angeles Housing Department (LAHD) General Manager, or designee, to:
  - 1. Effectuate a loan of up to \$2,700,000 from the Home Investment Partnership Program (HOME) funds to Southside LA Housing Partners, LP. for the Southside Senior Housing Project development located at 1655 Manchester Avenue (Project); and

  
JUN 04 2025

2. Draft, negotiate and execute loan documents to provide a loan of up to \$2,700,000 for the Project, subject to review and approval of the City Attorney as to form.
- B. Authorize the Controller to obligate and disburse up to \$2,700,000 for the following project.

Project Name	Fund	Account	Amount
Southside Seniors	HOME - 561	43Y800 - Affordable Housing Managed Pipeline	\$2,700,000

- C. Disburse HOME funds from the loan upon review by LAHD and the City Attorney and a determination by LAHD, in its sole discretion, that disbursed funds will be used to pay appropriate construction costs that must be paid in order for the project to convert to permanent financing and repay the senior construction loan.
- D. Authorize the LAHD General Manager, or designee, to make any necessary technical corrections consistent with the Mayor and Council actions, subject to the approval of the City Administrative Officer and authorize the Controller to implement these instructions.
