I FURTHER MOVE that, should it adopt the required findings above, Council recess to closed session pursuant to Government Code Section 54956.9(d)(1) to discuss with, and receive advice from, its legal counsel on this matter and decide what action, if any, to take in response to *United States v. The Sunshine Canyon Community Amenities Trust Fund provides funds for financing community amenities within the City of Los Angeles, specifically within five miles of the Sunshine Canyon landfill.

Streetlights are a critical component of urban infrastructure, enhancing safety and security for residents and businesses. In Council District 12, many neighborhoods have been left without functioning street lights due to prolonged outages caused by copper wire theft and vandalism. Adequate street lighting has been shown to improve public safety and deter crime.

There is a need for solar street light conversions within Council District 12. Solar street lights are available and would provide the necessary improvements to improve the overall neighborhood safety and quality of life for CD12 residents. This effort is of special benefit for the residents of the City and for CD12 and deserves financial assistance from the City. Sufficient funds are available in Sunshine Canyon Community Amenities Trust Fund which could be used for this purpose.

I THEREFORE MOVE that the Council **RESOLVE** that \$300,000 in the Sunshine Canyon Community Amenities Trust Fund No. 699-14 be transferred / appropriated to the below listed accounts in the amounts specified in the Street Lighting Fund No. 100-84, for the purchase and installation of solar-powered lights within five miles of the Sunshine Canyon landfill in Council District 12:
