ARTS, PARKS, LIBRARIES, AND COMMUNITY ENRICHMENT COMMITTEE REPORT relative to authorizing the execution of the proposed agreement between the Department of Recreation and Parks (RAP) and CultivaLA, Inc. for the operation and maintenance of the Pico-Union Cesar Chavez Community Garden, located at 1554 West 11th Place.

Recommendations for Council action:

1. AUTHORIZE the Board of Recreation and Park Commissioners (Board), or designee, to execute the proposed agreement between the RAP and CultivaLA, Inc. for the operation and maintenance of the Pico-Union Cesar Chavez Community Garden, located at 1554 West 11th Place, Los Angeles, California 90015, for a term of five years upon the execution of the agreement, with one five-year option to renew, subject to review and approval of the City Attorney as to form.
2. REQUEST the Board, or designee, to attach the Standard Provisions for City Contracts (Rev. 1/25)[v.2] to the proposed

agreement before execution.

Fiscal Impact Statement: The City Administrative Officer (CAO) reports that the agreement will have no adverse fiscal impact on the General Fund or the Recreation and Parks Fund No. 302, as the CultivaLA Inc. is a self-sustaining program, and events and activities are funded through CultivaLA Inc. dues, grants, and private donations, at no cost to the RAP.

Financial Policies Statement: The CAO reports that the action recommended in the report complies with the City's Financial Policies as there is no cost to the City associated with the proposed agreement.

PUBLIC SAFETY COMMITTEE REPORT relative to directing the Emergency Management Department (EMD) and Chief Legislative Analyst (CLA), in coordination with the Department of City Planning (DCP) and Los Angeles Fire Department (LAFD), to report on whether the Rancho LPG facility has been, or will be assessed and incorporated as a high-priority risk in the City's Local Hazard Mitigation Plan (LHMP); and related matters.

Recommendations for Council action, as initiated by Motion (McOsker – Yaroslavsky):

1. INSTRUCT the EMD and CLA, in coordination with the DCP, LAFD, and the City Administrative Officer (CAO), to report to Council within 30 days on whether the Rancho LPG facility has been, or will be, assessed and incorporated as a high-priority risk in the City's LHMP, with a focus on hazards such as explosions, toxic releases, and the facility's proximity to residential, recreational, and commercial areas. The report should include the current processes for assessing facilities like Rancho LPG, identifying gaps in the risk evaluation, and suggesting improvements to better integrate potentially hazardous sites into the LHMP. The report should also include the cost to increase the weekly inspections to the site, along with existing records related to safety inspections for the site.
2. INSTRUCT the EMD and CLA, in coordination with the DCP and LAFD, to report to Council within 30 days on

how to enhance regional coordination between the City of Los Angeles, neighboring municipalities, fire departments, and emergency management agencies, to ensure a unified response strategy and communication regarding hazardous sites, including Rancho LPG. This should address risk reduction, emergency preparedness, and the safety measures in place at the facility to protect the surrounding community.

PUBLIC SAFETY and BUDGET AND FINANCE COMMITTEES' REPORT relative to the acceptance of the 2023 Urban Search and Rescue Task Force Cooperative Agreement Supplemental Grant.

Recommendations for Council action, SUBJECT TO THE APPROVAL OF THE MAYOR:

1. ACCEPT the 2023 Federal Emergency Management Agency (FEMA) Cooperative Agreement Supplemental Grant for the Urban Search and Rescue CA-TF1 in the amount of \$145,372 for the term of September 1, 2023 through August 31, 2026; and, AUTHORIZE the Fire Chief, Los Angeles Fire Department (LAFD), or designee, to execute any documents or agreements necessary to accept the grant, subject to the approval by the City Attorney as to form.
2. AUTHORIZE the LAFD to deposit the receipt of the Supplemental 2023 FEMA grant award funds into Fund No. 335/38, Account 38023R.
3. AUTHORIZE the Controller to transfer \$145,372 from Fund No. 100/38, Account 001012 (Salaries Sworn), to Fund No. 335/38, Account 38023R, for the purchase of expense and equipment items, to be reimbursed by the FEMA grant during the period of September 1, 2023 through August 31, 2026, and any extensions granted by FEMA.
4. AUTHORIZE the LAFD and the Controller to transfer funds, as needed, between Fund No. 335/38 and Fund No. 100/38, based upon submissions to the City Administrative Officer (CAO), for implementation of the 2023 FEMA Urban Search and Rescue Cooperative Agreement program through the end of the grant performance period.
5. AUTHORIZE the LAFD to prepare Controller instructions for any technical adjustments, subject to approval of the CAO; and, authorize the Controller to implement the instructions.

Fiscal Impact Statement: The CAO reports that approval of the recommendations stated in the report will authorize the LAFD to accept supplemental funding in the amount of \$145,372 for the purchase of replacement cache equipment in support of the 2023 FEMA Cooperative Agreement Grant for the Urban Search and Rescue (US&R) Task Force - California Task Force One (CA-TF1), for a total grant award amount of \$1,515,499. The term of the cooperative agreement will cover the period from September 1, 2023 through August 31, 2026. The LAFD will front-fund the costs for the purchase of the equipment, subject to reimbursement by FEMA upon submission of proper documentation. The FEMA grant does not require matching funds by the City. There is no additional impact to the General Fund.

Financial Policies Statement: The CAO reports that the recommendations provided in the report are in compliance with the City's Financial Policies, in that all grant funds will be utilized to fund grant activities.

STATUTORY EXEMPTION and HOUSING AND HOMELESSNESS COMMITTEE REPORT relative to the Alliance Settlement Agreement Program Fifth Funding Report; and funding allocation, lease and continued use for a period of up to five years for the interim housing/low barrier navigation center facility located at 7253 Melrose Avenue in Council District Five, for those experiencing homelessness; and related matters.

Recommendations for Council action, SUBJECT TO THE APPROVAL OF THE MAYOR:

1. DETERMINE that the funding allocation, lease, and continued use for a period of up to five years for the interim housing/low barrier navigation center facility located at 7253 Melrose Avenue is statutorily exempt from the California Environmental Quality Act under Public Resources Code Section 21080.27.5, applicable to low barrier navigation centers and Government Code Section 8698.4(a)(4) governing homeless shelter projects under a shelter crisis declaration. Refer to the Notice of Exemption, attached to Council file No. 23-1022-S19.
2. APPROVE the recommendations contained in the City Administrative Officer (CAO) report dated August 1, 2025, attached to Council file No. 23-1022-S19.

Fiscal Impact Statement: The CAO reports that there is no General Fund impact as a result of the recommendations in said report. The recommendations in the report utilize Homeless Housing, Assistance and Prevention Rounds Two and Four grants. There is a potential impact on the General Fund for future Fiscal Years relative to supporting ongoing services and leases, if not addressed through the budget.

Financial Policies Statement: The CAO reports that the recommendations in said report comply with the City's Financial Policies in that budgeted funds are being used to fund recommended actions.

GENERAL EXEMPTION, ENERGY AND ENVIRONMENT COMMITTEE REPORT and ORDINANCE FIRST CONSIDERATION relative to the First Amendment to the Windy Point/Windy Flats Project Power Sales Agreement, No. BP 09-17, between the Department of Water and Power (DWP) and the Southern California Public Power Authority for the purchase of 262 Megawatts of renewable wind energy from the Windy Point/Windy Flats Project.

Recommendations for Council action, SUBJECT TO THE APPROVAL OF THE MAYOR:

1. DETERMINE that the item is exempt from the requirements of the California Environmental Quality Act (CEQA) pursuant to the General Exemption described in CEQA Guidelines Section 15061(b)(3).
2. CONCUR with the Board of Water and Power Commissioners' (Board) action of June 24, 2025, Resolution No. 025-266, authorizing the execution of a First Amendment to Power Sales Agreement No. BP 09-17 between the DWP and the Southern California Public Power Authority for the purchase of 262 Megawatts of renewable wind energy from the Windy Point/Windy Flats Project, extending the current power delivery term of March 10, 2010 through September 9, 2034 by two additional years, from September 10, 2034 to September 9, 2036, for a total term of 26 years, at an estimated cost of

\$52,948,000 annually and \$105,896,000 over the two-year term extension.

3. PRESENT and ADOPT the accompanying ORDINANCE, dated July 3, 2025, approving the First Amendment to the Windy Point/Windy Flats Project Power Sales Agreement, No. BP 09-17, by and between the City, acting by and through the DWP, and the Southern California Public Power Authority.

Fiscal Impact Statement: The City Administrative Officer (CAO) reports that there is no impact on the General Fund. The First Amendment to Agreement No. BP 09-17 between the DWP and the Southern California Public Power Authority for the Purchase of 262 Megawatts of renewable wind energy from the Windy Point/Windy Flats Power Project is projected to cost \$52,948,000 annually and \$105,896,000 over the proposed two-year extension of the Agreement's term from September 10, 2034 through September 9, 2036. The required funding will be budgeted annually by the DWP and will be paid from the Power Revenue Fund.

RESOLUTION (HARRIS-DAWSON - BLUMENFIELD) relative to the Declaration of Local Emergency by the Mayor dated January 7, 2025, and Updated Declaration of Local Emergency by the Mayor dated January 13, 2025, due to the windstorm and extreme fire weather system and devastating wildfires in the City of Los Angeles (City), pursuant to Los Angeles Administrative Code (LAAC) Section 8.27.

Recommendation for Council action:

ADOPT the accompanying RESOLUTION, dated January 14, 2025, to:

1. Resolve that a local emergency exists resulting from ongoing windstorm and extreme fire weather system and the devastating wildfires in the City within the meaning of LAAC Section 8.21, et seq., as set forth in the Mayor's January 13, 2025 Updated Declaration of Local Emergency, which incorporated the declaration of emergency dated January 7, 2025, which the City Council hereby ratifies.
2. Resolve that because the local emergency, which began on January 7, 2025, continues to exist, there is a need to continue the state of local emergency, which the City Council hereby ratifies.
3. Instruct and request all appropriate City departments (including proprietary departments), agencies, and personnel, in accordance with LAAC Code Section 8.21 et seq., to continue to perform all duties and responsibilities to represent the City in this matter to respond to and abate the emergency and prevent further harm to the life, health, property, and safety, and receive, process; and, coordinate all inquiries and requirements necessary to obtain whatever State and Federal assistance that may become available to the City and/or to the citizens of the City who may be affected by the emergency.
4. Instruct the General Manager, Emergency Management Department, to advise the Mayor and City Council on the need to extend the state of local emergency, as appropriate.
5. Resolve that, to the extent the public interest and necessity demand the immediate expenditure of public funds to safeguard life, health, or property in response to the local emergency and to support the emergency operations of the City and its departments (including its proprietary departments), agencies, and personnel (including mutual aid resources) in responding to the declared local emergency, the competitive bidding requirements enumerated in City Charter Section 371, and

further codified in the LAAC, including LAAC Section 10.15 be suspended until termination of the state of emergency and solely with respect to purchases and contracts needed to respond to the declared state of emergency.

6. Direct and request City departments and agencies making purchases pursuant to the authority granted in paragraph five (5), above, to report every two weeks to the City Council regarding the purchases and contracts made during the prior two week period on the reasons justifying why such purchase or contract was necessary to respond to the emergency, including why the emergency did not permit a delay resulting from a competitive solicitation for bids or proposals, and why competitive proposals or bidding was not reasonably practicable or compatible with the City's interests.
7. Request all City departments and agencies who have the authority to investigate and/or enforce any/all forms of price gouging, fraud, and theft by deceit, as described in the California Penal Code, to do so to the fullest extent permissible under federal, state, and local law.
8. Instruct the City Clerk, unless and until Council directs otherwise or discontinues the state of emergency, to timely agendaize this matter so that Council may consider whether to continue the state of emergency.
9. **Instruct the City Clerk to forward copies of this Resolution to the Governor of the State of California, the Director of the Office of Emergency Services of the State of California, the Los Angeles County Office of Emergency Management, and the Los Angeles County Board of Supervisors.**

MOTION

I MOVE that the matter of the RESOLUTION (Harris-Dawson - Raman) relative to the Declaration of Local Emergency by the Mayor dated July 7, 2023, concerning local housing and homelessness in the City of Los Angeles (City), pursuant to the provisions of the Los Angeles Administrative Code (LAAC) Section 8.33, et seq., Item No. 45 on today’s Council Agenda (C.F. 22-1545), BE AMENDED to adopt the following additional recommendations:

- Resolve that, in order to facilitate the further development of a strategic termination of the current Declaration of Local Emergency, this Declaration of Local Emergency shall be confirmed for ~~45~~ 60* calendar days to October ~~3~~ 17*, 2025, and that this Declaration and the entire matter of its termination shall return to the full City Council within ~~45~~ 60* calendar days of today’s date.
- Resolve that the Chief Legislative Analyst, City Administrative Officer, and all relevant departments, prepare and transmit all relevant reports previously issued and pending transmittal, specifically Council File 25-0577 (McOsker, Raman – Juardo, Lee), Council File 23-0652-S10 (CAO Homelessness Emergency Declaration Ninth Quarterly Report), and Council File 23-0623-S1 (“Affordable Housing Streamlining Ordinance”, CPC-2023-5273-CA) to the full City Council for review immediately.
- Resolve that, with the exception of the ~~45~~ 60*-day return of this matter before the City Council, the City Clerk is instructed not to place any renewal of this Declaration of Local Emergency on any future City Council meeting agenda without any affirmative action from the City Council.

Access to parks and green spaces provide significant health benefits, including improved cardiovascular health and reduced risk of high cholesterol, hypertension, and obesity. According to the most recent report published by the Trust for Public Land (TPL), data shows that more than 1.5 million Los Angeles residents lack a park within ten minutes of their homes. On an annual basis, the TPL ranks the park systems of the 100 most populous U.S. cities, evaluating them based on equity, access, investment, amenities and overall acreage of green space. In their latest report, the City ranked 90th, a significant drop from its 49th position five years ago. While the City was on par with the rest of the nation for what percent of its land is designated for parks and recreation, low scores were given to the City for park amenities and total investment in its park systems. To address the shortage of park spaces in Council District 10, the City should explore the transformation of an existing Park and Ride site within the District into a park for the benefit of the neighboring community.

I THEREFORE MOVE that the City Council request the Los Angeles Department of Water and Power and the Department of Recreation and Parks to report on the feasibility of developing a neighborhood park at the Park and Ride site located on 2541 South Genesee Ave, Los Angeles, CA 90016.

MOTION

The City of Los Angeles faces a severe housing shortage, and also must attract and retain businesses. To meet these needs, it must be able to provide prompt, thorough and accurate reviews of applications for land use approvals and building permits. Although the City has made substantial progress in making more development by-right and eliminating the need for discretionary approvals, each project still must be reviewed to ensure that it complies with zoning and building codes. That is a time-consuming and highly-technical process, often requiring multiple rounds of reviews and resubmittals.

Artificial intelligence (AI) tools may offer the capacity to streamline that process by automating routine plan reviews to detect zoning or code compliance issues. If AI tools are made available to applicants, they can submit better applications. If used by City employees, AI tools could relieve City employees from mundane time-consuming tasks and allow them to apply their knowledge and expertise to resolving issues that require their professional judgment. AI would not replace valued City employees, but could allow them to work more efficiently.

In April 2025, Mayor Bass issued Executive Directive 10, Artificial Intelligence Pilot Program, which instructed the Department of Building and Safety (DBS) to report within 30 days with recommendations on the feasibility of the use of advanced technologies such as Artificial Intelligence to support DBS review of projects rebuilding from the January 2025 Wildfires. While rebuilding of the Palisades is of critical importance, the use of AI should not be limited to projects in a specific geographic area, and all departments that review projects should take advantage of AI to enhance their efficiency.

I THEREFORE MOVE that the City Council INSTRUCT the Department of Building and Safety (DBS) to report within 30 days regarding the recommendations included in its response to Executive Directive 10, and to establish a pilot program for use of Artificial Intelligence (AI) tools for pre-screening of permit applications by applicants to enable corrections prior to formal submittal, and for initial screening of applications by DBS;

I FURTHER MOVE the the City Council INSTRUCT the Department of City Planning (Planning) to report within 30 days with recommendations for the use of AI tools to assist in reviewing entitlement applications for zoning compliance and other code requirements;

I FURTHER MOVE that the City Council INSTRUCT DBS, in coordination with other departments that review applications for building permits, including the Bureau of Engineering, the Bureau of Sanitation, the Department of Transportation, and the Fire Department, to report within 30 days with recommendations regarding opportunities for the use of AI tools to improve efficiencies and enhance the review and coordination of applications.

On March 19, 2025, the City Administrative Officer discussed the Mid-Year Financial Status Report and projected a Fiscal Year 2025-26 General Fund gap of up to \$1 billion due to declining revenues, department over expenditures, increased pension contributions, and the growth in liability claims, among other issues.

In April 2025, the S&P Global Ratings lowered its long term rating on the City's general obligation bonds to AA- from AA, and lowered its rating on the Municipal Improvement Corporation of Los Angeles Lease Revenue Bonds to A+ from AA- with a negative outlook. The S&P noted that the downgrade reflects the City's weakening financial position, an emerging structural imbalance, and that the rapid pace of the reserve deterioration over the last two fiscal years highlight a near-term credit risk.

The Fiscal Year 2025-26 Adopted Budget appropriates \$121.8 million for the restoration of the Reserve Fund to \$419.9 million, or 5.13 percent of General Fund revenues as projected in the budget. However, the City financial condition continues to be at risk through increased tariffs and their impact on trade and tourism. In addition, the potential loss of federal funds, the on-going recovery from the January 2025 wildfires, and other market conditions present a continuing challenge to financial stability.

In light of these conditions, the City must take measures to the maximum extent possible to ensure that essential services are not jeopardized. Departments and elected officials must be vigilant in the use of taxpayer dollars. If there are situations in which a department or elected official fails to remain within an authorized budget, the City should institute consequences for such an action.

I THEREFORE MOVE that the Council instruct the City Administrative Officer to report with options to institute a new financial policy to specify that if a department or elected office's contract spending exceeds the amount authorized by Council, the responsible department or elected office be required to transfer an amount equal to the over expenditure from their operating budget to the Reserve Fund.

RESOLUTION

WHEREAS, any official position of the City of Los Angeles with respect to legislation, rules, regulations, or policies proposed to or pending before a local, state, or federal government body or agency must first have been adopted in the form of a Resolution by the City Council; and

WHEREAS, the Los Angeles Convention Center (LACC), located in Downtown Los Angeles, is one of the largest convention centers in the United States and serves as a vital civic asset, hosting trade shows, conventions, exhibitions, and concerts that contribute significantly to the city's economy and cultural life; and

WHEREAS, the LACC is slated to host at least five Olympic sporting events during the 2028 Olympic and Paralympic Games; and

WHEREAS, the City is currently considering a transformative expansion and modernization project at the LACC that includes approximately 340,000 square feet of new exhibit hall, meeting room, and multi-purpose space, along with upgraded public amenities and new exterior digital signage; and

WHEREAS, the project is expected to create approximately 8,700 temporary jobs and 2,200 permanent jobs, attract an estimated 500,000 additional visitors annually, and generate more than \$550 million in economic impact for the City over the next 30 years; and

WHEREAS, a portion of the project's funding is expected to come from operational revenues, including advertising from digital signage, but existing state regulations under the Outdoor Advertising Act (OAA) currently prevent the City from establishing a sign district at the Convention Center; and

WHEREAS, on February 3, 2025, the California Department of Transportation denied the City's request to certify a sign district at the LACC, hindering the City's ability to generate necessary project revenues; and

WHEREAS, AB 770 (Mark González) would create a targeted exemption in the OAA to authorize the City of Los Angeles to establish a sign district at the LACC; and

WHEREAS, AB 770 will empower the City to pursue essential revenue opportunities that support public infrastructure, create family-sustaining jobs, and revitalize the local economy while maintaining appropriate safeguards and accountability.

NOW, THEREFORE, BE IT RESOLVED, that by the adoption of this Resolution, the City of Los Angeles hereby includes in its 2025–2026 State Legislative Program SUPPORT for AB 770 (Mark González).

Systemic change is needed in Los Angeles to improve the delivery and funding of homelessness services. The Los Angeles Homeless Services Authority (LAHSA), a Joint Powers Authority between the City and County of Los Angeles, procures and administers homelessness services contracts on behalf of the City of Los Angeles.

The County of Los Angeles created the Department of Homeless Services and Housing by consolidating their CEO-Homelessness Initiative and Department of Health Service's Housing for Health staff, and plans to hire/transfer a component of LAHSA staff and funding to the new County department by July 1, 2026. The Chief Legislative Analyst and the City Administrative Officer will be reporting back on the implications on the new County Department for homelessness and its impacts on the City's homelessness contracts with LAHSA (CF 25-0316).

The City of Los Angeles is exploring the establishment of a Homelessness Oversight Bureau within the Los Angeles Housing Department (CF 25-0207); and the Chief Legislative Analyst provides recommendations towards the creations of a City department on homelessness (CF 24-0330), and also has been directed to report on bypassing LAHSA and contracting directly with Service Providers (CF 24-1480). The Chief Legislative Analyst has also been directed to report on the necessary steps to establish a City of Los Angeles Continuum of Care (CF 25-0699, CF 25-0689).

Within Council File 24-0330, the CLA Report dated April 22, 2025, notes that the transferring the Measure A funding and staff from LAHSA to the County "...will significantly alter the purpose and functions of LAHSA, to the extent that it may no longer be able to provide services that support the City's needs... and economies of scale for IH [interim housing] contract administration may be lost as a result of the County removing and unbraiding funding." The report further lays out "As a result of the County's withdrawal of funds, the City might be obligated to either rely on the County to manage City IH [interim housing], increase funding for IH administration at LAHSA, or for the City to bring IH management into a City department."

The City of Los Angeles should explore contracting directly with the County to administer contracts with service providers who operate City funded interim housing sites and other homelessness services programs, in an effort to reduce administrative cost and achieve efficiencies and more expedient contract administration.

I THEREFORE MOVE to direct the Chief Legislative Analyst, in consultation with the Los Angeles Housing Department (LAHD), City Administrative Officer (CAO), the Los Angeles Homeless Services Authority (LAHSA), the Office of the Controller, and the Office of the City Attorney, and with requested input from the Los Angeles County Department of Homeless Services and Housing, to report back within 45 days, with the following:

- An analysis of the City of Los Angeles withdrawing all legally allowable homelessness funding from LAHSA and instead contracting with the Los Angeles County Department of Homeless Services and Housing (County Department), with the LAHD Bureau on Homelessness Oversight (LAHD Bureau) as the City's formal contract holder with the County Department, utilizing the recently-executed Outreach Memorandum of Understanding as a potential model;
- A financial analysis of the contract transfers, including a contemplation of potential changes to the administrative rate, savings related to City staff time, and other factors;

AUG 20 2025

- Realistic timelines to have all necessary contracts, agreements, funding transfers, and necessary staffing levels in the LAHD Bureau in place;
- Recommendations for developing potential programmatic and contractual obligations, to be overseen by the LAHD Bureau, with the County Department, including, but not limited due: real-time data reporting on services performed within the City, geographic prioritization for interim and/or permanent housing placements in City-funded facilities to the fullest extent legally allowable, and baseline allocations for the following programs: encampment resolutions, rental subsidies, access to mainstream County behavioral, mental, and physical health services, access to substance use and recovery programs;
- Recommendations on increasing City integration within the Emergency Centralized Response Center;
- An analysis of the City's statutorily required minimum funding commitments for LAHSA in its current role as the lead of the Los Angeles Continuum of Care (CoC);
- Recommendations for potential funding levels to sustain LAHSA's current statutorily required programs, including, but not limited to, administration of the Homeless Count, CoC, and Coordinated Entry System / Homeless Management Information System;
- Recommendations for more fully aligning and harmonizing the City's annual homelessness funding recommendations and funding disbursements with County processes. recommendations to contract directly with the County to administer homeless service contracts

I FURTHER MOVE to direct the City Administrative Officer, in consultation with the Chief Legislative Analyst, to engage with the County of Los Angeles to explore the establishment of a new memorandum of understanding that achieves greater administrative efficiencies and cost-sharing models for the operation of interim housing sites currently funded by the City.

MOTION

In response to the ongoing housing crisis and pursuant to Mayor’s Executive Directive 1 (ED1), the City has accelerated housing development citywide. However, this expedited process has had unintended consequences that have led to the eviction of tenants from Rent Stabilized units.

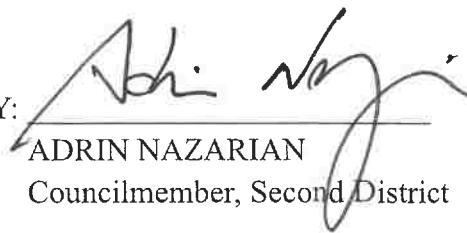

Over the last few years, the City Council has strengthened tenant protections on an array of issues, including relocation assistance for large rent hikes, United to House LA funded programs, protections against “renovictions,” and requiring just cause evictions.

However, there are serious concerns surrounding Municipal Code (LAMC) §151.09(C)(4) as our Rent Stabilization Ordinance (RSO) and our Resident Protection Ordinance are supposed to protect our RSO tenants from being evicted due to new developments. The ordinance does not clearly specify whether a demolition permit must be merely applied for or actually issued prior to the service of such eviction notices.

Moreover, a section of the Valley Glen community has a very high concentration of RSO properties and should be protected from evictions taking place until the issue is clarified.

I THEREFORE MOVE that the Council instruct the Planning Department, in consultation with the City Attorney, to prepare and present an Interim Control Ordinance (ICO) to prohibit the issuance of any demolition, building, grading or other applicable permits for properties regulated by the Rent Stabilization Ordinance in the area of the Valley Glen community, bounded by Hazeltine Avenue on the east; the properties facing the north and south sides of Oxnard Street until Woodman Avenue; the properties facing the east and west sides of Woodman Avenue from Oxnard Street to Hatteras Street; and Buffalo Avenue between Hatteras Street and Oxnard Street, as further specified in the attached map, pending the study and adoption of additional protections for tenants in RSO units proposed for demolition.

I FURTHER MOVE that the ICO include an Urgency Clause, making it effective upon publication, and consistent with California Government Code Section 65858, the ICO shall be effective for a period of 45 days, with the option to extend the ICO for an additional year, or until the adoption of the appropriate land use regulatory controls have been prepared by the necessary Departments, adopted by the Council and become effective, whichever occurs first.

RESOLUTION

WHEREAS, any official position of the City of Los Angeles with respect to legislation, rules, regulations or policies proposed to or pending before a local, state or federal governmental body or agency must have first been adopted in the form of a Resolution by the City Council with the concurrence of the Mayor; and

WHEREAS, the aerospace industry has long played an important role in the economy of the Los Angeles region, especially in the San Fernando Valley; and although its presence is diminished from its heyday, local companies and production facilities still play an important role including in space exploration and defense programs; and.

WHEREAS, the National Aeronautics and Space Administration's (NASA's) Artemis campaign is planned to explore the Moon for scientific discovery, technology advancement, and to establish the first long-term presence on the Moon; including the first manned moon landings since the Apollo 17 mission in 1972; and

WHEREAS, the RS-25 engines that will power the rockets for the Artemis program are manufactured and modernized at L3Harris Technologies' Aerojet Rocketdyne site in Canoga Park; and

WHEREAS, the Trump Administration's proposed FY26 federal budget would cut NASA funding by nearly 25% and would jeopardize the Artemis program, proposing shifts to commercial technologies and systems that are still unproven; and

WHEREAS, the federal government should continue to invest in space exploration and other scientific endeavors, not only to advance our knowledge and understanding of the universe but also to maintain a technological edge that is important for our national security;

NOW, THEREFORE, BE IT RESOLVED, with concurrence of the Mayor, that by adoption of this Resolution, the City of Los Angeles hereby includes in its 2025-26 Federal Legislative Program OPPOSITION to proposed cuts in the budget for the National Aeronautics and Space Administration, including those that threaten the Artemis program.

The City of Los Angeles is preparing to host a series of major global sporting events—including the 2026 FIFA World Cup, 2027 Super Bowl, and 2028 Olympic and Paralympic Games—which will bring millions of residents and visitors, including people with disabilities, to enjoy outdoor and public spaces during periods of increasingly frequent and dangerous extreme heat.

Without adequate access to shade and hydration, the health, safety, and comfort of our residents and visitors will be at significant risk, particularly in high-exposure locations such as transit stops, public gathering areas, pedestrian corridors, and event queues.

Extreme heat is already the deadliest climate-related hazard in Los Angeles, and in response, the City has initiated major policy efforts including the development of a Climate Action & Adaptation Plan, Climate Vulnerability Assessment, and a Citywide Urban Forest Management Plan (UFMP). Prior Council actions including Council File (C.F.) 15-0499-S2, C.F. 23-0167 and C.F. 24-1228 have emphasized the need for expanded urban forestry, improved shade infrastructure, and broader climate resilience strategies.

On July 16, 2025, the ShadeLA campaign launched as a regional, multi-sector initiative coordinated by the University of Southern California (USC), in collaboration with the University of California Los Angeles (UCLA) Luskin Center for Innovation, and the participation of the County of Los Angeles, LA Metro, the Organizing Committee for the 2028 Olympic and Paralympic Games (LA28) and a wide network of community-based organizations and nonprofits.

ShadeLA seeks to accelerate deployment and maintenance of both natural and built shade through collaboration—both to prepare for large-scale events and to deliver lasting community benefits in neighborhoods and populations most vulnerable to heat. Further, ShadeLA will be a venue for supporting new funding opportunities through civic collaboration, building off of many past programs and initiatives where the City has benefited from external non-profit partners taking on tree planting in the public right-of-way with funding from external grants, philanthropy and LADWP.

The launch of ShadeLA should be an impetus for the City to rethink how collaboration and a revamped permitting processes can support getting more trees planted in the public right-of-way.

The ShadeLA campaign directly supports implementation of the City's UFMP, complements LA28 legacy planning, and offers a coordination platform to track shade deployment, identify permitting barriers, and establish new public-private partnerships in support of citywide resilience.

AUG 20 2025

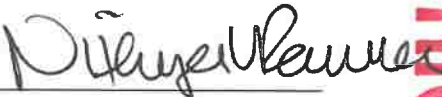

I THEREFORE MOVE that the City Council formally authorize the City's participation in the ShadeLA campaign as a City-supported and city-wide initiative aligned with the goals of the draft Urban Forest Management Plan, Heat Action and Resilience Plan, and the City's broader heat resilience and climate preparedness strategies;

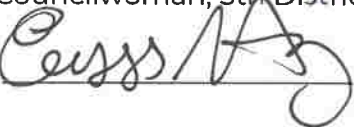

I FURTHER MOVE that the City Council instruct the Bureau of Street Services, Bureau of Engineering, Department of City Planning, Department of Recreation and Parks, Department of Transportation, Emergency Management Department, and other departments as appropriate—to each designate a department liaison to participate in ShadeLA coordination efforts. These efforts include the identification of relevant programs, resources, and related data for ShadeLA to create and maintain a public-facing, open-source dashboard to track shade and cooling infrastructure across the City.

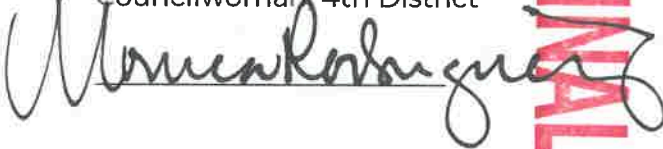

I FURTHER MOVE that the City Council instruct the Bureau of Engineering with support from the Bureau of Street Services, Department of City Planning Office of Forest Management, and all other relevant bureaus and departments to report back within 60 days with an evaluation of existing processes and recommendations on:

- o Automation and/or streamlining of permitting processes and potential improvements related to natural shade (e.g., trees, pocket parks);
- o Establishment an expedited approval for permanent or temporary shade elements including shade elements for bus benches, modular shade structures, shade sails, temporary canopies, particularly where such structures are within the public right-of-way;
- o Optimal tree spacing and planting practices, and sustainable practices for maintenance and preservation of existing trees that prevents negative impact to public infrastructure; and,
- o A status report and timeline from the Bureau of Street Services on the progress of adopted standard plans for the Shade Structure Program Element from the Sidewalk and Transit Amenities Program (STAP) Contract C-141478, along with an implementation plan for installing STAP Shade Structures.

Street lighting is a core service provided by the City that is both a public safety and quality of life issue, ensuring our streets are navigable regardless of the time of day, and increasing residents' sense of security at night. Over the past decade, the City has seen increasing incidents of vandalism against its streetlight network which have resulted in widespread outages and extended the average repair time to restore lighting. While the City has launched a task force to address the theft of copper wire from street lighting infrastructure and taken action against recycling companies that purchase the stolen materials in bulk, vandalism against City streetlights has continued.

The Bureau of Street Lighting, which manages the City's network of over 220,000 streetlights, has taken numerous actions to respond to this rise in streetlight vandalism, including hardening infrastructure and piloting newer technologies, including solar-powered streetlights that do not require copper wiring. As part of the innovative technologies the Bureau has deployed, it has also installed smart nodes on a small proportion of its streetlights that allow the Bureau to remotely monitor the status of streetlights.

For the vast majority of streetlights, the City relies primarily on resident reports and service requests to monitor the status of its network. This reliance on service requests extends the time between when an outage occurs and when the City is able to make repairs to streetlights, regardless of if the repairs needed are simple or complex. Expansion of the City's capability to monitor the status of its streetlight network in real-time would allow the City to respond to outages more nimbly, provide more granular data on where and when damage to streetlights is occurring, and enhance the Bureau of Street Lighting's overall operation.

The Bureau of Street Lighting should explore the feasibility of installing sensors that allow for active and remote monitoring of its streetlights whenever it is implementing other improvements to reinforce and harden its infrastructure. This would enable the City to be more proactive in addressing streetlight outages, especially in areas where residents may be less likely to report issues.

I THEREFORE MOVE that the Bureau of Street Lighting be instructed to report with recommendations for embedding sensors within street lighting infrastructure to allow for active monitoring of the status of streetlights when it is installing other security improvements.

The Rent Stabilization Ordinance (RSO), codified in Chapter XV of the Los Angeles Municipal Code, provides for tenant protections in cases where a landlord seeks to withdraw rental units from the market for purposes such as demolition, subject to the Ellis Act. Under current law, landlords may initiate eviction proceedings for demolition-related projects before a demolition permit has been formally approved. This practice has created uncertainty and hardship for tenants, especially when demolition is delayed or never executed.

At the same time, current City regulations give developers one (1) year after demolition permit approval to commence demolition and two (2) years to complete the project. While this timeline provides structure, some developers have expressed that complex permitting and construction schedules—particularly on large or infill projects—may require modest extensions to meet completion deadlines.

To better protect tenants from premature displacement and ensure that demolition-based evictions are legitimate and tied to real, permitted projects, the City should amend the RSO to require that a valid demolition permit be approved and issued prior to filing any eviction based on demolition. Furthermore, in order to promote responsible project planning and avoid unnecessary penalty or noncompliance due to timing constraints, the City should consider extending the demolition completion period from two (2) years to two and a half (2.5) years.

I THEREFORE MOVE that the City Council direct the Los Angeles Housing Department (LAHD), with the assistance of the City Attorney and Department of Building and Safety (LADBS), to report and prepare a draft ordinance to amend the Rent Stabilization Ordinance (RSO), and other relevant City codes, to implement the intent of this Motion as follows:

1. Require that a demolition permit be approved and issued by the Department of Building and Safety (DBS) prior to the service or filing of any eviction notice related to demolition under the RSO and/or Ellis Act. (However, LAHD would not clear the demolition permit until it has verified the subject property is vacant.)
2. Amend the applicable city codes to extend the period allowed to complete demolition after the issuance of a demolition permit from two (2) years to two and a half (2.5) years (i.e., 30 months), while maintaining the existing one (1) year limit to commence work.
3. Ensure enforcement mechanisms are incorporated so that failure to initiate or complete demolition within the amended timeline subjects the landlord or developer to penalties, including, but not limited to, tenant re-occupancy rights and financial restitution.

I FURTHER MOVE that the City Council instruct the Department of Building and Safety, LAHD, and the Department of City Planning, Department of Public Works - Bureau of Street Services, Bureau of Engineering, Bureau of Sanitation, and the Los Angeles Fire Department to report back on timelines for clearances of demolition permits, as well as the issuance of the permit.
