Funding for the remaining related costs of \$69,840 is included in the City Attorney's 2024-25 and 2025-26 Adopted Budgets. There is no matching funds requirement. There is no General Fund impact and the recommendations in this report are in compliance with the City's Financial Policies in that budgeted appropriations will be balanced against grant award receipts.

The City's Financial Policies require that the City pursue Federal, State, and private grants, but strictly limit the financial support of these programs to avoid commitments that continue beyond available funding. The recommendations in this report are in compliance with the City's Financial Policies in that proposed funding is balanced against grant revenue approved by Council actions and from Federal and State grant receipts. All funding is subject to the availability of grant funds and determinations by Mayor and Council. Accepting the grant and approving the recommendations in this report are in compliance with the City's Financial Policies as the grant funds are fully reimbursing the General Fund for grant eligible activities.

Fiscal Impact Statement: The CAO reports that the recommendations stated in the August 4, 2025 CAO report, attached to the Council file, include transfers, appropriations, and authority for expenditures totaling \$14.09 million. This consists of \$5.63 million from various special funds, \$6.83 million in MICLA funds, and \$1.63 million in CTIEP funds. All transfers and appropriations are based on existing funds, reimbursements, or revenues. There is no additional General Fund impact for operations and maintenance costs as a result of these recommendations.

Financial Policies Statement: The CAO reports that the recommendations stated in the August 4, 2025 CAO report, attached to the Council file, comply with the City's Financial Policies in that appropriations for funds are limited to available cash balances needed to fund ongoing maintenance, programming, project shortfalls, and critical operational needs in the current budget year.

Debt Impact Statement: The CAO reports that the issuance of MICLA debt is a General Fund obligation. The reauthorization of various projects (Items Z, DD, GG, JJ and PP detailed in the August 4, 2025 CAO report) would cause the City to borrow \$10.7 million at an approximate 5.5 percent interest rate over a period of 20 years. The total estimated debt service for these projects is \$18.0 million, including interest of approximately \$7.2 million. During the life of the bonds, the estimated average annual debt service is \$0.9 million over a period of 20 years. The reauthorization of Los Angeles Convention Center (LACC) MICLA projects (Item U) would cause the City to borrow \$24.1 million at an approximate 5.5 percent interest rate over a period of 10 years. The total estimated debt service for these projects is \$40.2 million, including interest of approximately \$16.2 million. During the life of the bonds, the estimated average annual debt service is \$2.0 million over a period of 10 years. Actual interest rates may differ as rates are dependent on market conditions at the

time of issuance. The CAO stated that it cannot fully predict what interest rates will be in the future. In accordance with the City's Debt Management Policy, the City has an established debt ceiling to guide the evaluation of the affordability for future debt. The debt ceiling for non-voted direct debt as a percentage of General Fund revenues is six percent. The 2025-26 Adopted Budget non-voter-approved debt service ratio is 2.40 percent. The issuance of MICLA debt for these projects will not cause the City to exceed the six percent non-voter-approved debt limit.
