ARTS, PARKS, HEALTH AND AGING COMMITTEE REPORT relative to a sublicense agreement with the Social and Public Arts Resource Center (SPARC) regarding Valley College Bridge.

Recommendations for Council action:

1. **AUTHORIZE the Board of Recreation and Park Commissioners to grant conceptual approval to the proposal by the SPARC to replace the Valley College Bridge with a solar-lit bridge with interpretive stations and the construction of five additional stations along the Tujunga Wash to provide access to the historical content of “The Great Wall of Los Angeles” mural located on the concrete walls within the Tujunga Wash.**
2. **AUTHORIZE the President and Secretary of the Board of Recreation and Park Commissioners to approve and execute, the 20-year Use Agreement, substantially in the form on file in the Board Office, between the City of Los Angeles, and the Los Angeles County Flood Control District for the continued use of a portion of the Tujunga Wash, located between Burbank Boulevard and Oxnard Street, for the replacement of the Valley College Bridge, installation of certain improvements, and continued maintenance of existing hiking and biking trails, subject to the approval of the City Attorney.**
3. **AUTHORIZE the President and Secretary of the Board of Recreation and Park Commissioners to approve and execute, the 20-year Sublicense Agreement, substantially in the form on file in the Board Office, between the City of Los Angeles and the SPARC for the use of a portion of the Tujunga Wash, located between Burbank Boulevard and Oxnard Street, for the replacement of the Valley College Bridge and installation of certain improvements, subject to the approval of the City Attorney.**

Fiscal Impact Statement: The Department of Recreation and Parks (DRP) reports that there is no significant fiscal impact to the DRP’s budget as the proposed project has its own budget and does not require additional DRP funds to complete. There could be some slight increase in maintenance costs when the pedestrian bridge and interpretive stations are complete. This may require additional resources which would be requested through the DRP’s standard budget process.
