PUBLIC SAFETY COMMITTEE REPORT relative to reducing the retention period for Police Department in-car video imagery.

Recommendation for Council action:

REQUEST the City Attorney to prepare an ordinance to amend the Los Angeles Administrative Code to reduce the City's record retention period from five to two years for Police Department in-car video imagery.

Fiscal Impact Statement: The Chief Legislative Analyst reports that, assuming implementation of a digital near-line storage system, reducing the in-car video retention period from the current minimum five years to the proposed two years would provide an annual cost savings of between \$465,000 to \$600,000 for 300 black and white vehicles at the Police Department, Operations-South Bureau, and between approximately \$2,130,000 and \$2,750,000 for 1,375 black and white vehicles in all Department Bureaus.

(Information Technology and General Services Committee report to be submitted in Council. If public hearing is not held in Committee, an opportunity for public comment will be provided.)

(For background reports and materials related to this matter, contact the Legislative Assistant for the Information Technology and General Services Committee at 213 978-1071.)
