More information on the Housing Element can be found on the website <http://cityplanning.lacity.org/>. You can follow the updated information under the "What's New link", and under the "General Plan" tab (select "Housing Element" within this tab). The agenda for the meeting will be posted on the city website at [www.lacity.org](http://www.lacity.org) ( <http://www.lacity.org/> ) (see link to "Council Calendar").

\*The Housing Element does not change the current zoning. It merely lists areas where the development of housing is permitted under current zoning standards. This document is required by State law to show where housing could potentially be built within the City under existing zoning.
