PERSONAL

CITY SERVICES

PROGRAM

"Hire your own City work crew for a day"

PERSONAL CITY SERVICES PROGRAM

- The Personal City Services Program was launched by Councilman Greig Smith (District 12) in 2005. It gives community residents and groups the chance to improve and beautify their own neighborhoods, improving the quality of life for all.
- The program applies to residents or any group, such as a Business Improvement District or Neighborhood Council. It allows them to use their own funds to pay for the overtime costs for City crews to perform a variety of services. The services available include:
 - Tree trimming and weed clearing
 - Filling potholes
 - Curb, gutter & sidewalk repair
 - Upgrading park facilities
 - Equipment for park programs
 - Purchasing library books & materials or beautifying facilities at local library branches
- The City's 50/50 Sidewalk Reconstruction Program, which was implemented City-wide last year, allows residents to pay for services above what the City Budget allows. This Program has proved so popular that there is currently a waiting list because the demand has exceeded expectations. That program's success shows that City residents are willing to contribute some of the costs of having specific improvements and beautification of public spaces done more quickly. It also shows that residents are interested in investing to expand and enhance community facilities and programs.

CURB AND GUTTER REPAIR

POT-HOLE REPAIR
