## **GARCETTI ANNOUNCES FREE ENERGY EFFICIENT HOME IMPROVEMENTS AVAILABLE TO QUALIFYING EAST HOLLYWOOD FAMILIES**

Los Angeles City Council President Eric Garcetti today announced that families living in East Hollywood may be eligible for up to \$5,000 in free improvements to make their homes more energy efficient. This offer is made possible through the East Hollywood/Beverly-Normandie Earthquake Disaster Assistance Project, a partnership between the Community Redevelopment Agency (CRA/LA) Hollywood and Central Region and Enterprise, a non-profit organization that promotes homeownership.

“This is a great opportunity for East Hollywood families to save money while making their homes safer and more energy efficient,” said Council President Garcetti.

Improvements will be available to homeowners on a first come, first served basis. To be eligible, homeowners must live in their unit, live within the designated boundaries, and meet income requirements. For example, the maximum income for a one person household is \$42,450 per year; for a four person household the maximum income is \$60,650 annually.

Program participants will have their homes inspected to determine which of the available items would provide the greatest cost savings and energy efficiency. After the evaluation, homeowners select up to \$5,000 worth of improvements from the following options:

- Installation of seismic safety valves (mandatory for the program)
- Replacement of 1-2 window air conditioning units
- Tankless water heater or SunCache Solar Water Heating System (depending on condition of current water heater)
- Ceiling and under floor insulation, including an attic fan or vent
