

AUDITS & GOVERNMENTAL EFFICIENCY

JUL 13 2007

MOTION

The Chair, Audits and Governmental Efficiency Committee has collaborated with the Quality and Productivity Commission in an effort to improve government and implement quality and cost-savings programs. One of the activities was a joint letter sent to departments that were recipients of a Quality and Productivity Award in 2003, 2004 or 2005 requesting that they identify programs, or key components of the programs, that can be integrated into other departments for added cost savings, responsiveness, quality and efficiency.

I, THEREFORE MOVE that Council instruct the City Administrative Officer and the Chief Legislative Analyst to report to the Audits and Governmental Efficiency Committee identifying programs by former Quality and Productivity Award Recipients that merit further consideration for possible expansion to other departments.
