

OPERATION BRIGHT LIGHTS

"Operation Bright Lights" is an on-going community outreach program designed to encourage City of Los Angeles residents to report streetlights in need of repair to the Bureau of Street Lighting. Particular emphasis is given during the months of April and October.

Encourage those around you to call 3-1-1 to report damaged light poles, exposed wiring, burned out bulbs, or any other street lighting problems they know about (outside of the City call (866) 452-2489 or (213) 473-3231). The phone number is staffed on a year round basis, so refer to it any time you find a streetlight in need of repair.

If you wish to report a **traffic signal** outage, call the Department of Transportation at (213) 580-1177 during the day.

If the street light problem is on the **freeway** or at an on-off ramp, please call CALTRANS at (213) 897-0383.

If you pay your light bill to **Edison**, they are your service utility. Please call (800) 655-4555

We are also proud to announce that our "Operation Bright Lights" is on the Internet. We can be reached by E-Mail at streetlighting@bsl.lacity.org.

Help us Light up L.A. by participating in "Operation Bright Lights"

A graphic for "Operation Bright Lights" from the City of Los Angeles. It features a blue background with a white street lamp illustration. Text includes "BUREAU OF STREET LIGHTING" in yellow, "CITY OF LOS ANGELES OPERATION BRIGHT LIGHTS" in white, and "FOR STREETLIGHT REPAIR CALL 3-1-1 OR e-MAIL TO" in white. Contact information includes: Internet: streetlighting@bsl.lacity.org, World Wide Web (WWW): <http://www.lacity.org/bsl>, TDD: (213) 485-9669. At the bottom is a black silhouette of a city skyline with the text "BRIGHT LIGHTS—SAFE NIGHTS". A small logo for "Metropolitan Street Lighting" is in the top right corner.
