

The mission of West Valley Counseling Center is to provide high quality, affordable counseling in a private practice setting, and to offer a variety of educational services to meet community needs. To support our mission, the Center has brought together an outstanding team of licensed marriage and family therapists, licensed clinical social workers, marriage and family therapist interns, and registered MSWs. We also provide training, CEU's, and supervision for therapists and interns.

The staff, founders and directors of West Valley Counseling Center are pleased to announce the opening of West Valley Counseling Center, a non-profit corporation
