

MOTION

The Emergency Preparedness Department coordinates emergency preparedness efforts with other City departments however it has no formal oversight authority City-wide for this important function over the emergency preparedness staff of other City departments. This can result in inefficient use and coordination of resources, duplication of effort and inconsistent approaches for emergency preparedness.

Action is needed to review our approach to emergency preparedness in order to improve efficiency and coordination of all emergency preparedness efforts throughout all City departments.

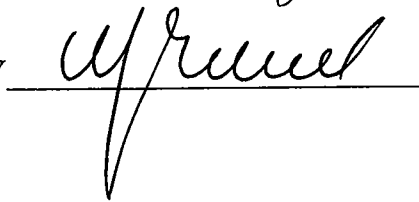

I THEREFORE MOVE that the CAO with the assistance of the Emergency Preparedness Department be directed to undertake a review of the Emergency Preparedness Department as it relates to the possibility of transferring and / or consolidating emergency preparedness positions that may exist in other City Departments. The focus of this review should be on the effectiveness of managing all emergency preparedness policies and efforts within one department to enhance a coordinated effort and eliminate potential duplicate responsibilities within the City.
