09-0802

The Los Angeles Information Technology Agency (ITA) is anticipating the implementation of a 5-40 work schedule on April 12, 2009 on employees who have been on the 3-12 work schedule.

Concerns have been raised about the impact this change will have on the employees whose 3-12 work schedules are being eliminated and the impact it may pose for City employees working on the 3-12 schedule regardless of Department or Civilian-Sworn status.

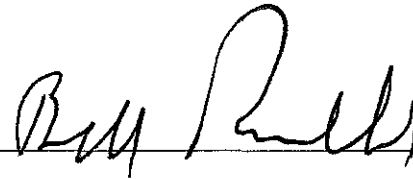

I THEREFORE MOVE that the appropriate representatives from the Los Angeles Information Technology Agency, the Personnel Department, the City Administrative Officer, and the affected employees' union be requested to attend the Personnel Committee to discuss this issue relating to elimination of the 3-12 work schedule within ITA.
