The bill would prohibit, commencing January 1, 2024, a state entity or public entity, including a charter city, charter county, city, or county, any public or private school serving pupils in kindergarten or any of grades 1 to 12, inclusive, a public institution of higher education, other than the University of California, or a private institution of higher education from purchasing or installing a covered surface containing regulated PFAS.

9) Discussion and possible motion to write a request for action to Councilmembers Nithya Raman (CD4) and Paul Kerkorian (CD2) regarding Senate Bill 499 School Extreme Heat Action Plan Act of 2023

10) Discussion and possible motion on the outdated Studio City & Cahuenga Pass Streetscape Plan

How can we update the planting plan along Ventura Blvd? The plan calls for Mexican Fan Palms, which are invasive and of limited environmental value and Chinese Pistache, which are sterile and non-native trees.

The Streetscape plan states on page 7: *“The Media Sub-District is one of the sub-districts in this area with river frontage. This presents an opportunity to create a connection between the Los Angeles River and the commercial edge of the Boulevard.”*

The project might use the RIO plant palette as quoted in this RIO Planting Guidelines: https://dpw.lacounty.gov/wmd/watershed/LA/LAR_planting_guidelines_webversion.pdf

Also, the guidelines in the LA River Master plan state: Increase plant species biodiversity, and focus on the use of local California native plants.
