SUMMARY

The Los Angeles Fire Department (LAFD) is requesting to execute a new Memorandum of Agreement (MOA) with the Regents of the University of California, on behalf of its UCLA Health System and the David Geffen School of Medicine, Department of Neurology (UCLA) in which LAFD and UCLA desire to enter into a mutual aid agreement, pursuant to the Department of Health Services, County of Los Angeles Regional Mobile Response Teams Policy 817, regarding emergency stroke transport services. The MOA agrees to allow UCLA's mobile stroke ambulance unit (MSU) access to stroke-afflicted patients within the LAFD's exclusive operating area in order to transport them to the appropriate receiving hospital.

The MSU is owned and operated by UCLA and is funded through a charitable donation. It is a modified ambulance with an on-board mobile computed tomography (CT) scan, point-of-care lab testing, tPA ("clot-busting" medication), and telemedicine hardware and software. The MSU is staffed by a UCLA critical care transport nurse, a UCLA CT technician, and a paramedic from an outside fire department (Santa Monica Fire Department or Torrance Fire Department).

The MSU will respond to suspected stroke incidents within various areas of Los Angeles by monitoring LAFD dispatches on a department radio and/or by requests by paramedics on scene of acute stroke patients. Timely diagnosis and treatment is critical for maximizing a patients' chance of making a full recovery. The MSU will provide timely response, cutting edge stroke diagnosis and treatment for the citizens of Los Angeles.

Attached for consideration is the MOA with the Regents of the University of California for the mobile stroke unit program for a period of five (5) years, from March 2, 2023 through March 1, 2028.

The MOA has been reviewed and approved as to legal form by the City Attorney. This Agreement with a governmental entity does not require City Council review and approval per City Charter Section 373.

3. Transmit the Agreement to the Mayor's Office in accordance with Executive Directive No. 3.

Basic Services. LAFD agrees to allow UCLA's mobile stroke ambulance unit ("MSU"), as a mutual aid resource, access to patients within the LAFD's EOA as pursuant to the Department of Health Services, County of Los Angeles Regional Mobile Response Teams policy 817, in order to transport patients from the location of patient pickup to the appropriate receiving hospital. The MSU operates under a joint agreement between UCLA and the City of Santa Monica Fire Department, including as part of Santa Monica Fire Department's ambulance fleet, which operate under 1797.224 of the Health and Safety Code, and is available to other provider agencies in Los Angeles County through the mutual aid policy.

LAFD shall provide two (2) mobile radios to UCLA to ensure electronic communication between the MSU and LAFD's dispatch center. All equipment shall remain the property of LAFD throughout the duration of this Agreement, and shall be returned to LAFD upon termination of the Agreement. All equipment shall be returned in as good a condition as received at the commencement of this Agreement, except for reasonable wear and tear. UCLA shall repair or replace any lost or damaged equipment, provided however, that UCLA shall not be responsible to repair or replace any lost or damaged equipment if LAFD is solely at fault for such damage or loss.

LAFD shall allow UCLA access to the appropriate data sources for process and outcomes measures of patients transported by the MSU, for program performance improvement and research purposes. These data sources may be hosted by LAFD or a contracted affiliate of LAFD (such as the Get with the Guidelines data source through the Los Angeles County Emergency Medical Services Agency).

B. SERVICES TO BE PROVIDED BY UCLA

Basic Services. UCLA shall provide the specialty transport team (or “STT”), and related medical direction and services, together with the MSU, medical equipment and supplies unique to the services provided by the STT for the clinical services and transport of patients to UCLA and other receiving hospitals.

Specialty Transport Team Medical Personnel. UCLA shall provide from among its employees such medical personnel for the STT, with the exception of the Paramedic, who will not be a UCLA employee. The Paramedic will be an employee of the City of Santa Monica and provides services on the MSU pursuant to an agreement between the City of Santa Monica and UCLA. For reasons of safety, efficiency and compliance, LAFD and UCLA agree that the STT will consist of 1 Paramedic, 1 Critical Care Transport Nurse, 1 Computed Tomography Technician, and 1 Vascular or Emergency Neurologist (via telehealth), each of whom are appropriately experienced and licensed for the level of care required for the transport. Each STT member shall be trained and familiar with medical operations prior to assignment to the STT. UCLA shall be responsible for all medical direction and authority of the STT, as described herein, during the transport of patients under this Agreement.

UCLA employees so assigned receive all of their compensation and benefits from UCLA in accordance with UCLA policies and procedures while performing these services.

Medical Director and STT Administrative Services. UCLA will provide a Medical Director (the “Medical Director”), who shall be a David Geffen School of Medicine, Department of Neurology (“Department”) physician, to provide clinical oversight services for the MSU Program. The Medical Director will: (i) provide clinical oversight with respect to the patients transported within the MSU Program; (ii) develop and approve medical treatment protocols for patients transported by the MSU; and (iii) work collaboratively with the LAFD’s medical director and assist LAFD in monitoring state and local EMS regulations as they relate to emergency transports. In addition to the Medical Director’s responsibilities, the MSU Critical Care Transport Nurse will provide program administrative oversight. These administrative services will include basic training of the MSU staff, scheduling of STT staffing, and quality assurance for the MSU Program.

Patient Care by UCLA Designated Physician during Transport. UCLA may, at UCLA’s sole discretion based on patient needs, designate a physician

to accompany the STT to provide direct patient care on an MSU transport. Said UCLA designated physician's patient care services shall be aside from, and in addition to the administrative duties of the Medical Director described above.

Maintenance and repairs of the MSU will be the responsibility of UCLA.

During the daily operations of the MSU, if Base Station contact is made, the MSU shall contact the UCLA Base Station or Cedars Sinai Medical Center Base Station, as applicable.

XII. GENERAL PROVISIONS

No Referral Contingency. The parties agree hereto that the benefits to each party hereunder do not require, are not payment for, and are in no way contingent upon the admission, referral, or any other arrangement for the provision of any item or service offered by either party in any facility, controlled, managed, or operated by any party. The parties expressly acknowledge and agree that it has been and continues to be their intent to comply fully with all Federal, State, and local laws, rules and regulations. Severability. If any provision of this Agreement is held to be illegal, invalid, or unenforceable under present or future laws effective during the term hereof, such provision shall be fully severable. This Agreement shall be construed and enforced as if such illegal, invalid, or unenforceable provision had never been a part of the Agreement, and the remaining provisions shall remain in full force and effect unaffected by such severance, provided that the severed provision(s) are not material to the overall purpose and operation of this Agreement.

However, both parties shall make good faith efforts to perform under this Agreement in the event of any such circumstances. When such events have abated, the parties’ respective obligations shall resume. In the event of such default, delay, or failure to perform, any date or times by which either party is otherwise scheduled to perform shall be extended automatically for a period of time equal in duration to the time lost by reason of the excused default, delay, or failure to perform.

COVID-19 Vaccination Requirement. Employees of UCLA and/or persons working on its behalf, including, but not limited to, subcontractors (collectively, “UCLA Personnel”), while performing services under this Agreement and prior to interacting in person with City employees, contractors, volunteers, or members of the public (collectively, “In-Person Services”) must be fully vaccinated against the novel coronavirus 2019 (“COVID-19”). “Fully vaccinated” means that 14 or more days have passed since UCLA Personnel have received the final dose of a two-dose COVID-19 vaccine series (Moderna or Pfizer-BioNTech) or a single dose of a one-dose COVID-19 vaccine (Johnson & Johnson/Janssen) and all booster doses recommended by the Centers of Disease Control and Prevention. If UCLA Personnel test positive, they shall not be assigned to perform In-Person Services or, to the extent they have already been performing In-Person Services, shall be immediately removed from those assignments. Furthermore, UCLA shall immediately notify City if UCLA Personnel performing

In-Person Services (1) have tested positive for or have been diagnosed with COVID-19, (2) have been informed by a medical professional that they are likely to have COVID-19, or (3) meet the criteria for isolation under applicable government orders.
