

LOS ANGELES FIRE DEPARTMENT

RALPH M. TERRAZAS
FIRE CHIEF

October 30, 2020

BOARD OF FIRE COMMISSIONERS
FILE NO. 20-103

TO: Board of Fire Commissioners

FROM:  Ralph M. Terrazas, Fire Chief

SUBJECT: IN-KIND DONATION OF MULTIPLE ITEMS TO FS 27

FINAL ACTION:	<input type="checkbox"/> Approved	<input type="checkbox"/> Approved w/Corrections	<input type="checkbox"/> Withdrawn
	<input type="checkbox"/> Denied	<input type="checkbox"/> Received & Filed	<input type="checkbox"/> Other

SUMMARY

The Los Angeles Fire Department Foundation (LAFDF), through its Adopt-A-Fire-Station program, has graciously donated a number of items to Fire Station 27 in Hollywood. The items and valuations include:

1. One (1) commercial studio cycle exercise bike valued at \$1,199.00.
2. One (1) Assault Air Bike Elite cardio exercise bike valued at \$1,299.00.
3. One (1) Precor TRM 731 Treadmill valued at \$5,874.29.
4. One (1) Jacobs Ladder exercise machine valued at \$4,495.00.
5. One (1) HIIT StairMaster Rower valued at \$1,124.25.
6. One (1) StairMaster 8 Series Gauntlet valued at \$5,386.50.
7. One (1) Continental Refrigerator 3R 78" Solid Door Reach-In Refrigerator valued at \$4,793.91.
8. One (1) Continental Refrigerator 1FE-LT-SA 28 ½" Solid Door Extra Wide Low Temperature Reach in Freezer valued at \$5,520.36.
9. One (1) Samsung 75" Class LED Smart 4k Television valued at \$2,299.99.

The purpose of the exercise equipment is to allow firefighters to maintain the necessary fitness levels to perform the often physically demanding fitness duties required in the course of their workday. Due to COVID-19, LAFD members have been unable to patronize private gyms on their off-days, so having proper fitness equipment at the fire station is of paramount importance for their health, wellness, and readiness to perform their job functions.

The purpose of the kitchen equipment is to provide safe and sanitary food storage at the fire station. LAFD firefighters work 24-hour shifts and typically cook their meals at the fire station while on-duty. Safe food storage is critical to ensure firefighters remain healthy while on duty. Additionally, restrictions in place due to the ongoing COVID-19 pandemic have encouraged firefighters to be judicious in their decisions to eat meals at neighborhood restaurants, which means that since March, firefighters have likely been eating a higher percentage of meals at the fire station than may be typically normal.

The purpose of the new television is to provide a modern platform from which the members assigned to the station can view training videos and instruction, as well as to have a modern device to watch during downtime in the course of their typical 24-hour shifts. The total value of the itemized donations is \$31,992.30.

RECOMMENDATIONS

That the Board:

1. Receive this report for the In-Kind Donation by the Los Angeles Fire Department Foundation for the items listed above, valued at \$31,992.30 to the Los Angeles Fire Department.
2. Request the Commission Executive Assistant to transmit this report to the Mayor's Office in accordance with Executive Directive No. 3 and to City Council in accordance with the Los Angeles Administrative Code, Ordinance 15514, Article 12, Section 5.111.4, for consideration and approval.

FISCAL IMPACT

There is no fiscal impact to the Department's budget from the acceptance of this donation. Donations provide the necessary items meeting the needs of the respective fire stations or administration sections. Replacement or repair of items meeting City specifications and Fire Department business needs may be borne by General Fund, subject to budgetary constraints.

CONCLUSION

The Los Angeles Fire Department benefits tremendously from gracious donations and support provided by the LAFD Foundation. The LAFD acknowledges the LAFDF for its generosity.

Board report prepared by Public Information Director Peter Sanders, Community Liaison Office.

PRECOR TRM 731

TREADMILL EXPERIENCE™ SERIES

The insight driven design of the TRM 731 delivers the same reliability, performance, and efficiency that Precor is known for at a budget-friendly price. Built for high-use on our commercial platform, this treadmill sacrifices nothing in longevity, making it a money-saving valuable investment.

PRODUCT FEATURES

P30 Console

The P30 console features easy-to-use motion controls and a LED display that focuses on the essential fitness stats that keep users informed and engaged. Add an optional Entertainment Cap to provide access to a selection of audio channels, including those from wall or ceilingmounted displays, or a Personal Viewing System (PVS) to give exercisers a more personal entertainment experience, with total choice and control.

Motor Drive System

The motor drive system improves performance, efficiency, and reliability through improved internal cooling, a wider operating range, and unique input current averaging to more precisely identify when a running belt requires replacement.

Integrated Footplant Technology™

Recognizes the exerciser's natural foot speeds and matches every stride for an ultra-smooth feel that enhances their workout experience.

Ground Effects® Impact Control System

Our patented GFX system combines ideal cushioning, support, and stability for exercisers. Precor decks are designed to provide more absorption in the front where the exerciser's feet hit the belt and added rigidity at the back for a firm push-off.

- ▶ Electronically controlled alternator, brake and drive chain precisely control the step speed, allowing a wide range of users to exercise smoothly within their comfort zone.
- ▶ Hot bar with stop button, heart rate, and level control
- ▶ Revolving staircase with eight steps, 8 in (20 cm) high, 9 in (23 cm) deep and 22 in (56 cm) wide
- ▶ 24 to 162 steps per minute
- ▶ User weight capacity 350 lbs (159 kg)

UP TO THE MACHINE THE ENTIRE GYM LOOKS UP TO.

Beginning with the first stepping machine in 1983, StairMaster® has been a legendary name in the gym. Today the tradition continues with the Gauntlet®. Building on 30 years of experience and proven performance, the Gauntlet® provides a superior combination of cardio and strength training in our most comfortable design ever. The machine features a deeper, wider step surface with durable, rust-free polypropylene construction and is now available with three smart, affordable, flexible, OpenHub™ console options. Combining quality with innovation delivers a workout that's head and shoulders above anything else in the gym.
