

LOS ANGELES FIRE DEPARTMENT

BRIAN L. CUMMINGS
FIRE CHIEF

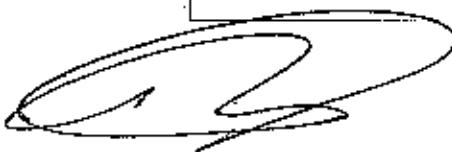

May 22, 2012

BOARD OF FIRE COMMISSIONERS
FILE NO. 12-076 R

TO: Board of Fire Commissioners

FROM: Brian L. Cummings, Fire Chief

SUBJECT: **RESPONSE TO THE CONTROLS OVER THE CITY'S FUEL USE**

FINAL ACTION:	<input type="checkbox"/> Approved	<input type="checkbox"/> Approved w/Corrections	<input type="checkbox"/> Withdrawn
	<input type="checkbox"/> Denied	<input type="checkbox"/> Received & Filed	<input type="checkbox"/> Other

Recommendation: That the Board:

1. Accepts this report on the Department's response to the Controller's audit report entitled "Controls Over the City's Fuel Use" which includes findings and the recommendations as they apply to the Department from the Office of the Controller.

The Department's fuel use and procedures were audited by the Controller's office. The Department has reviewed the recommendations and has identified the Sections that need to be addressed by listing tasks, responsibilities and target dates.

Summary:

On March 29, 2012, the LAFD received the attached Controller's audit report entitled "Controls Over the City's Fuel Use." The LAFD has responded to the audit and has prepared their response. A table listing the findings, recommendations, and target dates including current status is attached.

Fiscal Impact:

The Department has not yet determined the fiscal impact of implementing a fuel monitoring system and the procurement and installation of lock boxes.

Conclusion:

The Fire Department continues to work on meeting the tasks, responsibilities and required dates of compliance specified in the audit. The Administrative Operations Commander will continue to monitor the compliance. The attachment outlines what has been completed and has target dates of completion for required milestones. These include:

- Fuel Use Monitoring utilizing two target dates of September 2012 and December of 2014
- Fuel Card Controls by December 2012
- System Reliability by September 2012
- Vehicle Use Monitoring by December 2012

The Department will provide regular updates to the Fire Commission to keep them informed of the progress in meeting the recommendations of the audit.

Board report prepared by Daren Palacios, Chief Deputy, Administrative Operations.

April 30, 2012

Honorable Wendy Greuel
Controller, City of Los Angeles
Room 300, City Hall East

Attention: Claire Barfels, Chief Deputy Controller

Dear Ms. Greuel:

Controls over the City's Fuel Use

The Fire Department (LAFD) is in receipt of your audit report entitled "Controls over the City's Fuel Use," dated March 29, 2012. The Department is generally in agreement with your findings and recommendations. Attached is the LAFD's response to the findings and the recommendations as they apply to the Department.

The LAFD wishes to thank you for the review of our controls over fuel usage. It is the intent of this Department to be compliant with the policies and procedures regarding fuel use. The Department will cooperate fully with the implementation of the recommendations.

Very truly yours,

A handwritten signature in black ink, appearing to read "BRIAN L. CUMMINGS".

BRIAN L. CUMMINGS
Fire Chief

Report Title:
 Report Issuance Date:
 Department responsible for Implementation:
 Reported Status Date:

Audit of Controls Over The City's Fuel Use
 March 29, 2012
 Mayor, GSD, LAPD, LAFD, RAP, LA Housing, Convention Ctr.

DEPARTMENT REPORTED INFORMATION					
Finding Number	Summary Description of Finding	Rec. No.	Recommendation	Current Status	Basis for Status
Section I Monitoring	With the exception of LAPD, departments do not utilize the data available through the Fuel Automation Report Center to monitor fuel use for potential problems or abuse. Thus, inappropriate fueling transactions could occur without being detected and fuel costs may not be minimized.	1	The Mayor should direct management of user departments to implement adequate monitoring procedures over fuel use. This should include monitoring the following high-risk transactions: (a) Bypass, (b) Keypad Entry for (AP2), (c) Master Card (d) Negative Odometer (e) High Mileage (f) After hour & weekend (g) High Volume	P1 4	The Department has procedures to monitor fuel use to avoid high risk transactions. These procedures will be strengthened by developing and implementing the following procedures - (1) Install VIT in all Department's vehicles over a two-year period, (2) Create log sheets for tracking and monitoring high risk transactions using the Fuel Automation Report, (3) Perform monthly/quarterly reviews of the logs for compliance, (4) Procure and install combination lock boxes in all Department's stations to secure master cards and logs. JUNE 2014
		5	The Mayor should direct management of user departments with responsibility over fuel sites to ensure that each fuel site maintains logs to record fuel dispensed using the bypass mode and master cards. These logs should be reconciled, at least on a sample basis, to data from the Fuel Automation Report Center, and departmental managers should review these logs to identify any potential problems.	P1 6	The Department has developed and will implement log sheets for recording fuel dispensed using the bypass mode. The logs will be monitored and reconciled to the Fuel Automation Report on sample basis monthly to ensure compliance. DECEMBER 2012
		6	The Mayor should direct management of user departments with responsibility over fuel sites to establish procedures prohibiting the use of master cards at sites other than their assigned sites.	O	LAFD disagrees with this recommendation. Implementing this policy will impede the Department's ability to protect the public during emergencies. In emergency situations, the Department should be able to obtain fuel at any City fuel site assigned or not assigned.

Audit of Controls Over The City's Fuel Use
March 28, 2012
Mayor, GSD, LAPD, RAP, LAFD, Convention Ctr.

DEPARTMENT-REPORTED INFORMATION					
Finding Number	Summary Description of Finding	Rec. No.	Reconvenementation	Current Status	Target Date for Implementation
Section II	Fuel Card Controls		The Mayor should direct departments to conduct regular department-wide physical inventories of fuel cards and to reconcile the inventories to GSD's records. Both the physical inventory and reconciliation should be documented.	P1	The Department is in the process of conducting an annual Department-wide physical inventory of all fuel cards. The results will be reconciled with GSD's records. DECEMBER 2012
2	Departments do not conduct regular and documented physical inventories of fuel cards, which increases the risk of inappropriate fuel transactions.	11	RAP and LAFD management should ensure that master cards are maintained in secure locations, with access restricted to only authorized individuals.	NI	LAFD will procure and install combination lock boxes in all Department's stations. The lock boxes will house master cards and logs for recording high risk transactions. DECEMBER 2012
3	Master cards at RAP and LAFD should be better secured.	14			
Section III	System Reliability		The Mayor should direct departments with tankers and above ground tanks to maintain logs to record fuel dispensed. Information recorded should include the date, quantity dispensed, and the vehicle ID or equipment number. Management at departments should periodically review the logs to determine whether they are being completed properly and that the fuel is being used for appropriate City purposes.	P1	The Department has developed and will implement log sheets for recording fuel dispensed from Point Of Distribution (POD). The logs will be monitored on sample basis semi annually. SEPTEMBER 2012
6	Not all fueling transactions are recorded in the database	17			
Section IV	Vehicle Use Monitoring		The Mayor should direct departments who have pool vehicles to establish formal policies and procedures related to checking-out vehicles and maintaining trip logs. These policies and procedures should address the types of vehicles covered by the policies/procedures.	P1	LAFD will develop and implement authorization policies and procedures for checking out pooled vehicles. Current trip logs will be standardized and modified to increase accountability monitoring. DECEMBER 2012
7	Departments have not established adequate policies and procedures for checking-out vehicles and for maintaining trip logs.	1B
