During the Board of Fire Commission Meeting on September 4, 2012, the Commission inquired as to whether or not the department provided a single page organizational chart for Commission review and public access. As required by the City Administrator Officer (CAO), the department submitted an annual organizational chart that reflects current positions within the organization. That report shows each level of the organization from the operational side to the administrative side of the department. This report is made available to the public through the City's website. This is a very detailed document that displays each level of the department. Unfortunately, a single page chart that summarizes the organizational structure was not made available at that time through this format. Therefore, the department administration has drafted a single page summary of the organizational chart for submittal to the Fire Commission and public posting. This document will be available on the department's website lafd.org.

Board report prepared by the Planning Section.
