LAUSD REDISTRICTING COMMISSION REQUEST FOR PROPOSALS ADVISORS TO ASSIST IN IMPLEMENTATION OF THE MEDIA AND OUTREACH STRATEGY

I. INTRODUCTION

The LAUSD Redistricting Commission (Commission) intends to hire advisors to assist in implementation of the media and outreach efforts necessary to maximize public input in the redrawing of LAUSD Board of Education District boundaries under the direction of the Outreach Director and Executive Director. This Request for Proposals (RFP) provides information for prospective bidders concerning the scope of the project and the services required to evaluate this project.

A. Intent

The Commission is seeking proposals from qualified firms to assist the Commission with implementation of the media and outreach efforts necessary to maximize public input on the redrawing of LAUSD Board of Education District boundaries. Due to the unique nature of this proposal, the consultant will have experience and team capability to assist in working with the ethnic and small market media in the City, providing media messaging, and maximizing outreach to residents who are not civically engaged.

Advisors will provide and implement a strategy to develop a consistent media message for the Commission. Engaging the ethnic media, including cultural and non-English media, and small market media throughout the City will be a critical component of the consultant's efforts. Advisors will also provide and implement a strategy to maximize the Commission's outreach efforts to residents who are not civically engaged.

B. General Overview

The Los Angeles City Charter requires that the LAUSD be redistricted at least once every 10 years. It calls for creation of a fifteen-member Redistricting Commission, which provides recommendations to the Los Angeles City Council for adopting a redistricting plan that sets boundaries for LAUSD Board of Education districts.

The testimony and input of LAUSD residents is critical to creating a redistricting plan that provides fair and effective representation for all residents of the LAUSD.

C. Required Copies and Deadline for Submission of Proposal

Proposers must supply all information requested in the format prescribed by this RFP. One electronic PDF of the proposal is required. The proposal shall be addressed to:

Office of the Chief Legislative Analyst
Attn: Sharon Tso

Frequently Asked Questions

What is redistricting?

Every 10 years, LAUSD Board of Education district boundaries are re-drawn to account for population changes. The Redistricting Commission makes recommendations to the Los Angeles City Council on adoption of the LAUSD's redistricting plan that sets the boundaries of Board of Education districts.

Why is it important?

How and where districts are drawn can shape communities' ability to elect the representatives of their choice. Districts must be made as equal in population as practicable so that communities have equal access to political representation.

Who are the Commissioners and how were they selected?

Information on the fifteen (15) Commissioners and their duties, appointment, and term can be found on our [website](#).

How will the Commission encourage public input?

The Commission welcomes comments at any of our public meetings, as well as by telephone, letter, or email. In addition to regular meetings, several public input hearings will be held throughout the redistricting process. The public comment form for written comments can be found on our [website](#).

When and where will public hearings be held?

Public hearings will be held August through September in anticipation of adopting a draft plan in late September/early October 2021. Public hearings will again be held in October 2021 in anticipation of adopting a final plan by the Commission on or before November 1, 2021. The current schedule is available on our [website](#). Suggestions for facilities locations are welcomed and encouraged if in-person meetings are allowed under local health guidance.

How can my community stay informed and get involved?

We encourage you to request a community presentation, attend a virtual meeting, virtual public hearing, submit comments, and contact us anytime throughout this process. More information on how to get involved is available on our [website](#).

Standard Statement of the Chair – LAUSD Redistricting Commission Public Hearings

Welcome to this public input hearing of the LAUSD Redistricting Commission. Let me first ask my colleagues to introduce themselves and to state by whom they were appointed to serve on this Commission.

Thank you. The full Commission has 15 members: 7 appointed by each member of the LAUSD Board of Education, four appointed by the Los Angeles City Council President; and four by the Mayor of the City of Los Angeles. We have elected Mr. Luis Sanchez as Chair, and Ms. Andrea Ambriz as Vice Chair. To date we have had XX meetings to organize ourselves, establish our procedures and processes, and hire staff.

This hearing is part of the first phase of soliciting public input in our work. There will be many other opportunities. We are committed to providing the residents of the Los Angeles Unified School District with full opportunity to participate in this process. We are holding XX public input hearings prior to the development of any maps. Once we develop an initial map and approve it for public distribution in late September/early October, the full Commission will hold a second round of hearings to receive your further input. Our final map must be completed by XX. Our map will then go to the City Council which has until December 31, 2021 to adopt the final map.

We are making redistricting software and data available to the public so that you may submit your own recommended maps. We also are making the information we gather available online through our Commission website as well as providing the public the opportunity to submit testimony, comments and maps online.

Before we begin receiving your comments, the City Attorney will provide a brief overview of the redistricting law and criteria that we are obligated to follow. That presentation will be followed by a member of our Data & Mapping Committee who will explain the concept of “Communities of Interest” and how this information is crucial to the success of our work.

Standard Statement of the City Attorney's Office – LAUSD Redistricting Commission Public Hearings

On behalf of the Los Angeles City Attorney's Office, we welcome you to this public hearing of the LAUSD Redistricting Commission. Our Office's role is to provide legal advice to the City, including this Commission, throughout the redistricting process. We would like to take this opportunity to discuss several important laws and legal principles that apply to redistricting.

The Los Angeles City Charter requires the City Council to redraw the lines for the LAUSD's 7 Board of Education districts at least once every 10 years. The Charter creates this Redistricting Commission to advise the City Council on the drawing of the LAUSD Board of Education district lines. The Charter requires the Redistricting Commission to obtain public input, prepare a redistricting proposal, and present the proposal to the City Council.

Several important legal criteria govern the redistricting process:

Equal Population Principle – Board of Education districts must contain, as nearly as practicable, equal portions of the total population of the Los Angeles Unified School District. This principle is established in the City Charter and also in the United State Supreme Court's "One-Person, One-Vote" decisions.

U.S. Constitution's Equal Protection Clause – The United States Supreme Court has held that race cannot be used as the predominant factor in drawing district lines such that traditional redistricting criteria are subordinated to considerations of race.

Voting Rights Act of 1965 – The Voting Rights Act prohibits voting practices which result in a denial or abridgement of the right to vote on account of race, color, or language minority status. Redistricting plans must be analyzed under the Voting Rights Act to ensure they do not deprive minority voters of an equal opportunity to elect representatives of their choice in violation of the Act.

Traditional Redistricting Criteria – Federal, state and city law have established several traditional redistricting criteria all of which shall be considered to the extent feasible when drawing district lines:

Contiguity – all parts of a district should connect

Compactness – districts should be geographically compact

Existing Boundaries – districts should utilize boundaries such as geographic, street, and political boundaries and conform to high school attendance zones

Communities of Interest – districts should preserve neighborhoods and communities of people sharing common interests

More information regarding the laws governing the LAUSD's redistricting process are available on the Redistricting Commission's website:

Standard Statement of the Data & Mapping Committee – LAUSD Redistricting Commission Public Hearings

Good evening/afternoon/morning, Ladies and Gentlemen. The City Attorney has just provided a brief overview of the redistricting law and criteria that the Commission is obligated to follow in the redistricting process. As a member of the Data & Mapping Committee, I will now address the concept of “Communities of Interest” and how this information is crucial to the success of the Commission's work.

As the City Attorney mentioned, traditional redistricting criteria consists of: maintaining compact districts, drawing contiguous districts, observing natural boundaries and respecting communities of interest. While the first three are easily identifiable, protecting Communities of Interest is typically the most subjective and controversial of the traditional redistricting criteria.

The concept of protecting communities of interest is to draw boundaries in a manner that preserves communities that share common interests and that should be included within a single district for purposes of their effective and fair representation. There are many types of common interests that may identify a community of interest. For example, communities may share common housing patterns: urban, rural or suburban. Communities may share a common culture or language. Communities may be defined by their neighborhood, their neighborhood council, or by the location of cultural, religious or educational institutions. Communities may also be defined by the location of geographic boundaries or features, such as a City, parks, lakes, mountains or freeways. Certain public services, like public schools, public transit, the Los Angeles Police Department or the County Fire Department, may also help define a community.

The Commission will be using a wide range of information, including Census data on income level, educational background, housing patterns, same-sex households, cultural and language characteristics, employment and economic patterns, health and environmental conditions, crime, schools and other common issues. The Commission will also consider City planning maps, school attendance zone maps of the Los Angeles Unified School District, transit maps of the Los Angeles Metro, and neighborhood council maps, as well as other maps and geographic information.

While all of this written information is critical to the Commission's work, so is input from the public. The Commission has prepared a Public Comment Form on Communities of Interest. If you would like the Commission to consider a particular Community of Interest, we invite you to complete and submit a Public Comment Form, to speak at this public hearing or to submit your written comments to the Commission.

Thank you.
