Summary

Federal guidelines require that the City of Los Angeles update its Emergency Operations Plan, Annexes, and Appendices, every two years. The Emergency Management Department (EMD), identified as the lead City agency for emergency preparedness by the Administrative Code, oversees this process and created a schedule to comply.

During the review and update process, pertinent departments were asked to update their sections of the plans. The Planning Subcommittee, represented by various City agencies, has also been given an opportunity to review and discuss these plans in an open forum. EMD requests EOB to approve these plans and forward them to the Mayor and the Council.
